# PREFACE.

In presenting this, our eighth volume, to its patrons and the public, we congratulate our fellow-citizens upon the unprecedented development of our city, whose destiny it is to be one of the greatest cities on the line of railroads connecting New York with San Francisco and the rail way and commercial center of the northwest.

Des Moines is making more substantial progress from year to year, both in population and business, than any other city in the State, being now the metropolis of Iowa. The population to-day numbers twenty-five thousand and five hundred.

This work contains a review of the various interests of the city, a complete resident and business directory, a full list of the churches, educational institutions, orders and societies, city, county and State officers, a complete postoffice directory of Iowa, also cards of the leading business houses of the city.

To all who have so liberally supported this enterprise we extend our hearty acknowledgements, and present this work, as a faithful reflex of the increasing trade, business, manufacturing interests and population of our city, and we feel that her continued success and prosperity is due to your ability and enteprise, that our natural resources have been so rapidly developed as to give to Des Moines the important position she now occupies among her sister cities of the nation.

J. P. BUSHNELL, Compiler.

## The Daily Leader

Is an 8-colum folio, afternoon and evening paper. It contains all the telegraphic news and State news, gathered from special correspondents and the press of Iowa; local news and general miscellany. Its aim and ambition is to give truthful report, faithful and fearless comment upon all topics embraced in the sphere of modern journalism.

## The Weekly Leader

**Is Positively the Largest Weekly Paper** published west of Chicago, being a mammoth sheet, 35x48 inches. The market reports are the fullest and most accurate obtainable, including grain, produce, live stock, provisions, etc. It is located in the metropolis and Capital of the best agricultural State in the Union, with unexcellent railroad facilities. It is a paper adapted to the Iowan, the western farmer and merchant, as well as to the enquiring reader in Eastern States.

## SITUATION AND EXTENT.

Iowa is situated near the geographical center of the United States, and embraces an area of 55,045 square miles, or 32,228,800 acres, of fine, rich farming land unsurpassed in fertility. The two great rivers of North America—the Mississippi and Missouri—form the east and west boundaries. The eastern boundary is washed by the Mississippi river, a distance of 365 miles, and the *western boundary*, from the southwest corner to the mouth of the Big Sioux, by the Missouri river a distance of 364 miles, making a total of 729 miles. Its width, north and south, is about 200 miles, and its average length, east and west, a little over 300. There are ninty-nine counties in the State, and it is the fourteenth in size in the Union.

## SURFACE AND DRAINAGE.

The surface is gently undulating prairie, drained by numerous rivers and smaller streams. Thousands of small streams traverse every portion, *forming a system of drainage* that nature could scarcely have improved upon. In the northern counties there are many small but beautiful lakes, containing a bountiful supply of fish of several delicious varieties. The surface is free from the accumulation of stagnant water, while good and pure water from wells is easily obtained everywhere, and in many places living springs abound.

## CLIMATE.

The climate of Iowa cannot be called in question, as it is most delightful, healthful and invigorating. The United States census placed the State in the front rank in this respect. The pure running water with an absence of swamps and stagnant sloughs, renders the atmosphere salubrious at all seasons. Malarious diseases are unfrequent, and that scourge of some of the older settled States—fever and ague—is seldom known. Pulmonary complaints only exist when brought here by the sufferers.

## SOIL AND PRODUCTIONS.

The soil of Iowa has become justly famous for its fertility, and it may well be doubted whether there is an equal area of the earth's surface

that contains proportionately so little untillable land, or whose soil has so high a degree of average fertility. About ninety-five per cent of the surface is tillable land. The State being without ranges of mountains, and everywhere covered with a soil of such fertility and depth, its agricultural capabilities are almost beyond computation, so that agriculture must ever remain the principal element in the prosperity of our commonwealth. One very remarkable property of the soil is that it will withstand very wet as well as dry seasons, so that the crops suffer less than in any other section of the country. No year is there a failure, but usually a great uniformity in the harvests, which gives almost a positive annual assurance to farming. The soil in this respect, as well as in its depth and richness, is wonderful; nor is its fertility easily exhausted. The crops here last year were marvelously abundant, taxing the railroads to their utmost to carry the produce and the fatted stock to the markets of the world. It is said that this State alone is capable of a cultivation that would yield harvests amply sufficient to feed 40,000,000 of people.

Iowa presents attractions for the farmer which cannot be surpassed by any portion of the United States, in her undulating prairies, interspersed with open groves of timber, and watered by streams pure and transparent, hills of moderate height and gentle slope. Its broad fields unbroken by obstructions, afford the finest scope for the mower, the reaper, the planter and other agricultural implements which have been invented to save the laborof the husbandman.

Corn is always a sure crop, yielding from forty-five to seventy-five bushels per acre. Oats are also a sure crop and yield largely. Wheat generally does well in all parts of the State. Flax has been raised with great success. All kinds of root crops do well and yield enormously. Hardy fruits are raised successfully. Good water is abundant everywhere on the prairies, and is found at an average of about twenty feet from the surface.

## STOCK-RAISING

Is an important, lucrative and growing business in Iowa, and with the facilities now presented to our farmers for reaching market, is yielding golden returns. There is always a demand, and generally at remunerative prices, for all the stock a farmer can raise. The fine herds of cattle, sheep and swine exhibited at our annual State and county fairs attest that Iowa will soon rank foremost among the stock-raising States of the Union. The fertile prairies, covered with the most nutritious grasses and watered with clear and never-failing streams, afford a range of pasturage unsurpassed in excellence or extent. The grass is known as the blue joint, said to be equally as good as the cultivated varieties, grows with great luxuriance in the valley bottoms, and can be had in an unlimited quantity for merely the expense of cutting and curing. The natural prairie grass is always plentiful and a never-failing crop. Tame grass and clover thrive well, and both are now largely cultivated, thus giving to cattle a later range than is possible on prairie grass. Seldom, if ever, are cattle troubled by any form of disease. This can be attributed in a measure to pure air and an abundant supply of good water.

Stock-Raising is fast becoming a most profitable branch of farming. Iowa is the first State in hogs, the second in wheat and corn in the Union.

STATISTICS OF GRAIN, LIVE STOCK, ETC., FOR 1880.

| | BUSHELS. | VALUE. |

## FRUIT GROWING.

It has long since been fully demonstrated that Iowa is one of the best fruit-growing States in the Union. The beauty and flavor of her orchard products have not been excelled in any State, and since our nurserymen have cultivated the varieties adapted to our soil and climate, we find no difficulty in raising apples abundantly. Already the older counties are shipping large quantities every year. In the new counties, thousands of young orchards are coming on to supply the demand of the future. Other kinds of fruit have proved equally successful. Pears, cherries, plums, grapes and all of the small fruits of the garden common to the latitude are easily produced, and most abundantly in those portions of the State where they have received attention. Iowa has for years taken the first premium at the National and Industrial Exhibitions for the finest and greatest number of varieties of apples, true to name, which our State Horticultural Society hold the medals to attest.

## MINERAL RESOURCES.

The coal field of Iowa covers an area of over twenty thousand square miles, and mining is successfully carried on in some thirty-five different counties, principally situated in the Des Moines valley, twenty to fifty miles on both sides of the river, Polk county being the center. This is an important branch of industry, and with the largely increasing demand, is yielding remunerative returns for the capital invested. The measures thus far worked are from three to eight feet in thickness. The coal is bituminous and in quality fully equal to this class of coal found in other parts of the world. The mining of coal has attracted large amounts of capital, and gives employment to thousands of men and a constantly increasing traffic to our railways. Copper, iron and zinc have been found in limited quantities. Gypsum of the finest quality exists in large deposits. Limestone, suitable for first-class quick-lime is found in abundance in most parts of the State. Stone of good quality for building purposes is quarried in most of the counties, while potter's clay, fire clay,

and clay suitable for the manufacture of brick, are found in abundance. Discoveries of valuable deposits of mineral paint have also lately been made in several places. Lead has for years been extensively mined.

## FUEL.

Although Iowa is a prairie State, nearly all the streams are skirted by splendid groves of timber—the prevailing varieties being oak, walnut, hickory, ash, elm, maple, linn, hackberry and cottonwood. Where cultivated in the sparsely timbered counties, it develops a rapid growth, and in a short time the owner of a prairie farm may raise timber enough to supply his demands for fuel. By means of our admirable network of railroads the vast coal fields are also easily accessible from every part of the State. There are also large deposits of peat in some of the northern counties, but it has been used only to a limited extent.

## MANUFACTURING FACILITIES.

The admirable adaptation of Iowa for the production of raw material, her vast coal deposits, good water powers, and her transportation facilities, both by rail and water, enable her to offer remarkable inducements to the capitalist and manufacturer. Various kinds of manufactories are needed throughout the State, and those who may invest capital in them here can hardly fail to realize ample returns.

## RAILROADS.

The railroad system of Iowa now being developed will afford to our people access to the great markets of the world. In addition to her present competing lines of transportation, eastward and southward, others are projected. The great national highway across the continent lies directly through Iowa. In 1860 there were twenty States of the Union which had more lines than Iowa; now there are only four. This wonderful progress in the construction of railroads indicates the confidence which capitalists entertain as to the future of Iowa. The number of roads now in the State extending in almost every direction, main lines and branches, is forty-eight, the number of miles being about 5,237. There were built last year more miles of road in this than any other State in the Union, save one, and the prospect for 1881 is that she will be first in this regard. Iowa is traversed by railroads in almost every direction, and the work of building new lines is steadily progressing. There are but two counties in the State which do not have at least one road running through them. The first road entering the State—the C., R. I. & P.—crossed the Mississippi river in 1855. In 1860 there were 665 miles in the State; in 1870, 2,683; in 1875, 3,850, and on December 31, 1880, 5,237.

## LANDS, TAXES, ETC.

Of the 35,228,800 acres of land in Iowa, scarcely one-half has yet been brought into cultivation, and the unimproved lands are equal in fertility to any in the State. The various railroad companies are now offering their lands for sale on easy terms, at prices ranging from $3.00 to $15.00 per acre. There are also large quantities of land in nearly all the counties, owned by private parties, which may be purchased at low rates. As soon as these lands pass into the hands of actual settlers, and improvement is commenced, their market value rapidly increases. Between the north and south boundaries of Iowa the entire country between the Mississippi and Missouri is one of the best for farming purposes in the world. The prices of land, of course vary according to circumstances. In some parts of the State, lands of excellent quality may be purchased at from $4.00 to $10.00 per acre. In the counties already comparatively well settled, first-class prairie land is sold at from $7.00 to $15.00 per acre. It is all within convenient distance of market and railroad advantages. Timber land, of course, rates considerably higher than these prices. Improved farms command from $20.00 to $60.00 per acre, depending upon amount of improvement, location and other advantages. Iowa is out of debt. She is building a fine State Capitol at a cost of $3,225,000 which is nearly completed, but for which she does not go in debt, a two mills assessment meeting all the requirements of the State. This is found to be sufficient, not only for the Capitol, but to carry on all other State institutions, the revenue from this source alone being over $900,000 per annum. Each county controls its own rate of taxation, many of them having no outstanding indebtedness.

## NEWSPAPERS.

The press is a potent agency in Iowa, an outgrowth of the enterprise of the citizens. In the number and character of the daily and weekly secular papers issued, this young State is rushing rapidly to the front. The press everywhere is intelligently and earnestly at work, always endeavoring to promote the interests of Iowa, and to aid in the development of her resources.

## STATE INSTITUTIONS.

Iowa is well supplied with educational, charitable and reformatory institutions, liberally endowed by the State. In most cases expensive and appropriate buildings have been supplied, and the aggregate investment in public institutions reaches into the millions. The following is a list of the several institutions and their locations: State University, Iowa City; State Agricultural College and Model Farm, Ames; Training School for Teachers, Cedar Falls; Institution for Support and Education of Deaf and Dumb, Council Bluffs; College for the Blind, Vinton; Soldiers' Orphans' Home and Home for Indigent Children, Davenport; Asylum for Feeble-Minded Children, Glenwood; State Reform School, boys' department, Eldora; State Reform School, girls' department, Mitchellville;

Hospital for the Insane, Mt. Pleasant; Hospital for the Insane, Independence; Penitentiary of the State, Ft. Madison; Additional Penitentiary, Anamosa.

## EDUCATIONAL ADVANTAGES.

Iowa in her educational system ranks as one of the best in the Union. She has a permanent school fund, yielding an annual income of eight per cent, which is applied to the education of her youth. In addition, district and county school taxes are levied. The public schools are open and free to all between the ages of five and twenty-one years, for at least six months in the year. We have a State University, with an endowment by the State, and an Agricultural College, with an income derived from the sale of lands granted by the general government and appropriations by our State Legislature. The United States official statistics show a less percentage of individuals who cannot read or write in Iowa than in any other State in the Union. The annual expenditures for public school purposes is upward of $5,000,000. The number of teachers employed in 1880 was 21,598; school children, 586,556. There are 11,037 school houses, valued at $6,227,943. The various religious denominations have also established colleges and schools of the higher grades.

## POPULATION AND GROWTH.

In December, 1846, Iowa was admitted into the Union as a State, having a population then of but little over 100,000. The capital in 1857 was removed to Des Moines. The United States census of 1850 gave Iowa a population of 192,214; 1860, 674,913; 1870, 1,194,020, and in 1880, 1,624,463. Des Moines is now the metropolis as well as the capital. Since 1860 the percentage of increase has been four times that of the United States at large. Nine States which, in 1870, stood above Iowa in population now rank below her. When we call to mind the fact that the present greatness of Iowa is all the growth of less than forty years, we may well anticipate the grandeur that awaits her in the near future—that she is provided with all the means necessary for the more rapid development of her inexhaustible resources. In her healthful climate, productive soil, railroad and water transportation facilities, and her intelligent, enterprising people, we have the best guaranty that her future progress will be unprecedented.

# DES MOINES.

## LOCATION.

The founders of Des Moines, when they fixed upon the location, designed by nature for the site of a great city, must have looked into the future and caught a glimpse of the coming greatness of the country, while they recognized the importance of a location commanding the highways of the continent.

Des Moines is situated nearly in the center of the State, in longitude 16 degrees 43 minutes 5 seconds; latitude 41 degrees 35 seconds; and has been fitly chosen as the capital of our great and growing commonwealth. Two large rivers, six hundred feet wide, spanned by nine handsome, substantial bridges, unite within the corporate limits of the city, and from the confluence of these rivers, on either side, stretches a beautiful plateau, skirted by bluffs, rising by gentle acclivities on all sides, affording fine residence sites, while the level portion is extensive enough to accommodate the business of a large city. Never had a city fairer location or finer promise. No other city in the world has about it two hundred miles of as deep, rich land as Des Moines. Taking its location in such a field, its distance from any overshadowing city, and adding to these considerations the great natural advantages it has, in the inexhaustible supplies of coal for cheap motive power, and also its two rivers with the milling power to turn thousands of wheels, it is plain that it is marked by destiny as a future city of imperial power and rank. There is something about the location of our city, and best of all there is a spirit of enterprise with the business men, that makes one believe that much remains to be told of the future of Des Moines. There is not a city in the United States that stands on a better basis or has a better country to support it. It is already the metropolis of Iowa—the Eden of American agriculture. God seems to have lavished upon Iowa the best gifts of production, and Des Moines is destined to become just such a city as Iowa should have for her capital.

It is situated in the center of a marvelously productive State, in the richest agricultural region of the world, and this farming land, which is the foundation of wealth, can never be removed. These advantages are, therefore, permanent.

The surrounding country is abundantly supplied with streams of the purest water, upon the banks of which are found numerous varieties of valuable timber. Underlying the whole city and surrounding country are inexhaustible beds of coal. The Des Moines and Raccoon rivers furnish a never-failing water power, and clays and sands found in this vicinity are of superior quality for the manufacture of all articles from arenaceous and argillaceous compounds.

## EARLY HISTORY.

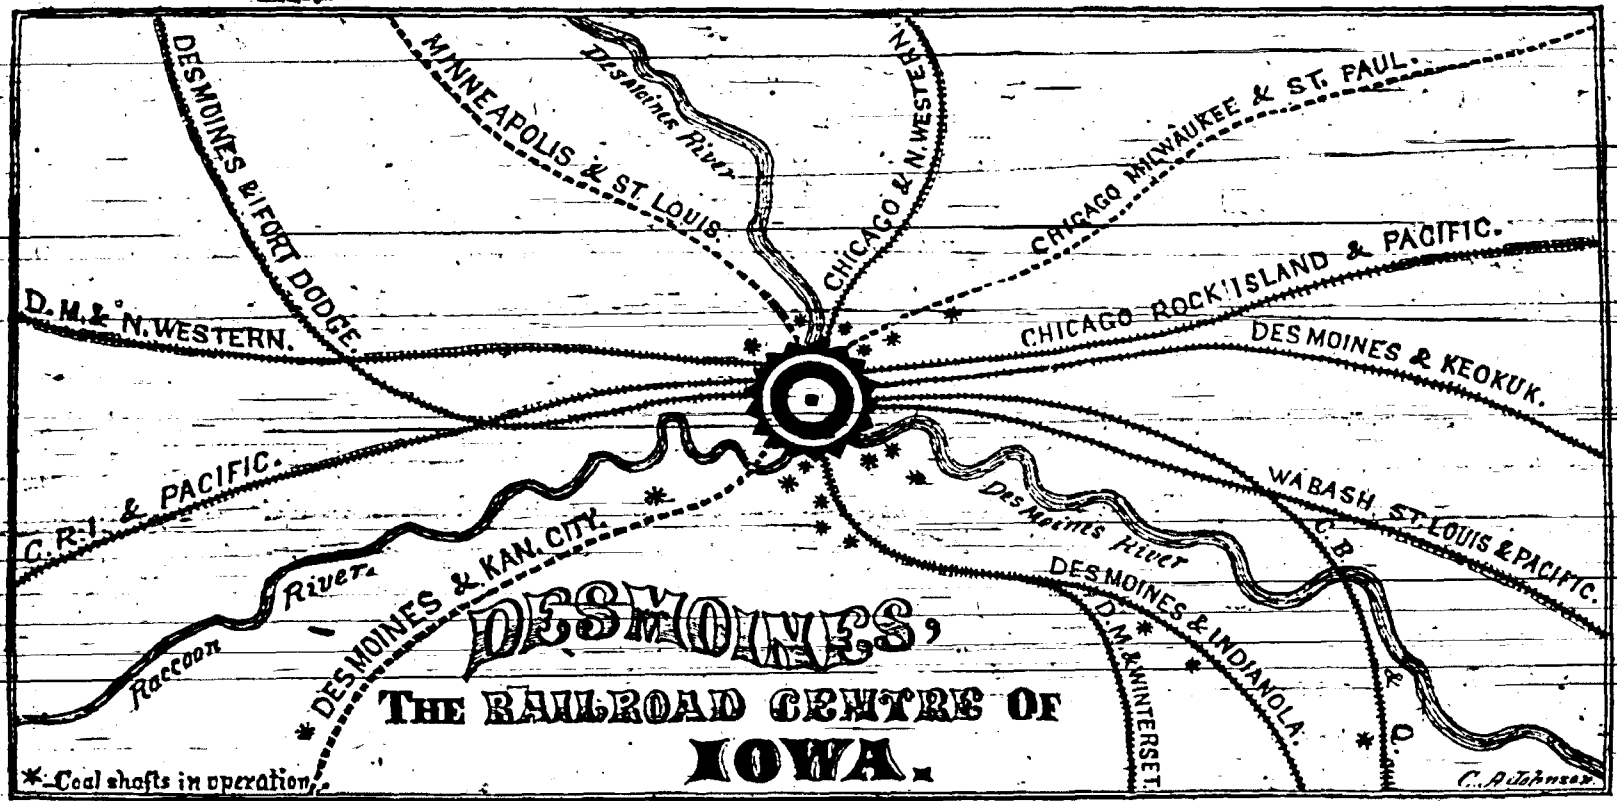

In early times those who settled here had in some way or other prophetic assurance that their little beginning would some day attain great things, and they were always ready to work hard and earnestly to see these hopes realized. In area Des Moines includes twelve square miles, which was originally part of the Sac and Fox Indian Reservation. In 1841–42 the westward march of civilization alarmed the Indians, as encroachments were made by white men upon the territory so highly prized by these tribes.

The government, seeing the demand for it, purchased the reservation from the Indians, October 11, 1842. To protect the settlers from the depredations of the Pottawattamie and Sioux Indians, a detachment of troops was sent by the government, arriving May 9, 1843, by the steamer Ione, landing where Court avenue bridge now stands. They immediately proceeded to erect barracks, and the post was named from the river—Fort Des Moines.

The county of Polk was organized by the Legislature in 1846, and a board of commissioners appointed to locate the county seat, which was fixed at Des Moines. The first survey of the town was made July 8, 1846. On the 22d day of September, 1851, the citizens voted to have it incorporated as a town, and articles of incorporation were adopted by the people on the 8th of October, 1851. The first election occurred October 20 of the same year. This was ratified by the Legislature in 1853, and in 1854 an act was passed by which Fort Des Moines became the capital of the State. In 1857 the archives of the State were removed here from Iowa City and deposited in the new State House. During the same year, also, the city of Des Moines was incorporated (without the prefix of "Fort").

## POPULATION AND GROWTH.

In 1846 the town contained one hundred and twenty-seven inhabitants; in 1850, five hundred and two; in 1860, 3,965; in 1865, 5,650; in 1870, 12,035; in 1875, 15,782; in June, 1880, 22,696, as given by the United States census, and we can safely claim to-day, from a careful canvass just made, in preparing the city directory for 1881, a population of 25,397. Des Moines is the largest city in Iowa, and we doubt not the next United States census will show her population to be 75,000. The progress made during the past year has been very gratifying. The improvements which have been made are great in many respects, and the business transactions very large. The records of the year 1880 show an era of unprecedented prosperity. It is an indisputable fact that, in all departments of business, there has been a steadily increasing development. It is due to an increase of facilities that many of the impediments have been resisted and overcome. Almost daily, new and improved forms of procedure are being introduced to the convenience and assistance of mercantile operations. The wonderful advances which have been so characteristic of our city are attributable to the indomitable energy and enterprise of the people. In no section is there a greater element of industry than here manifested.

Des Moines has *no rivals in Iowa* in location and natural advantages. But Nature, lavishly as she may endow a location for a city, cannot make a city. It takes men of energy and enterprise, which Des Moines has, to do that.

## PRESENT OUTLOOK.

Des Moines is growing in wealth and importance—society improving, schools enlarging, and many strangers *coming* within her borders daily. The business portion is rapidly solidifying—much more rapidly than our busiest citizens take note of, and on every side is heard the constant music of the hammer and the trowel, and *rumors* of numerous astonishing enterprises in the way of public buildings and factories are current in business circles. Everywhere trade is active and pushing. The streets are crowded with the products of commerce and of our prairies. The footways are overflowing with energetic, pushing people, who everywhere seem full of life and stir. Everything is here, or advertised as on the way; and, situated on the great lines of railway spanning the continent, one feels allied to the ardor and enthusiasm which flow along these great arteries of commerce.

## RAILROADS.

Few cities are more favorably situated than Des Moines, so far as railroads are concerned. The growth of the city has been rapid since the advent and opening of railroads, which converge here from every part of the State (freighted with the various products of the richest agricultural region of the world), making this city the convenient market for a territory hundreds of miles in extent. It is plain to be seen that our railroads sustain a very important relation in an industrial way to the people of Iowa, and contribute largely to the general prosperity. Situated in the valley of the Des Moines river, which abounds in timber and coal, it should and will be, if her business men have the sagacity to utilize the resources which Nature has placed in their hands, a great manufacturing city, and with a system of railroads leading out in all directions, it is already one of the best distributing points of the Northwest (and all portions of the country are looking to Des Moines as the metropolis of Iowa). The first railroad train entered the city August 29, 1866, on the Des Moines Valley Railroad (now the Keokuk & Des Moines).

The roads now centering here are the Chicago, Rock Island & Pacific, Chicago, Burlington & Quincy, Chicago & Northwestern, Keokuk & Des Moines, Des Moines & Ft. Dodge, Des Moines, Winterset & Southwestern, Des Moines, Indianola & Missouri, and the Des Moines & Northwestern. Other companies which contemplate the construction of their roads to Des Moines are the Chicago, Milwaukee & St. Paul, the Wabash, now under contract, the Minneapolis & St. Louis, the Milwaukee, Marion, Marshalltown & Des Moines, the Des Moines & Kansas City, and the Des Moines & St. Louis. The Des Moines & Northwestern Company will add to their road this year thirty miles of track into one of the richest portions of Iowa, and this country will thus be rendered tributary to Des Moines.

The Chicago & Northwestern propose to build during the present year two hundred and fifty miles of road, widening the narrow gauge north of Ames, extending it by way of Webster City and Algona to Blue Earth, where connection will be made with the St. P., M. & O. R.R., and over this line trains can be run directly from Des Moines to St. Paul. It is also the intention of this company to extend the line from Callanan to Lake City. The Chicago, Burlington & Quincy, and the Chicago, Rock Island & Pacific also contemplate the construction of various branches as feeders to their main lines into Des Moines. In fact, all portions of the State are asking for railroad connection with the metropolis of Iowa. Des Moines has developed more real energy and enterprise in the action of the business men than any other city in the West.

The desirability of securing the Wabash road in Central Iowa, with its new water route via barge system to the sea, and with its line to the East, independent of Chicago, is apparent to all. There never was a project presented to our people which met with so immediate a response from all concerned. The desire of the people of Iowa now is to get another direct connection with the East; also with St. Louis and the barge system down the Mississippi river. The prospect of getting this great road into central Iowa arouses this whole portion of the State. Des Moines began the movement last year, in securing for herself a direct line to St. Louis, to be operated as a part of the great system known as the Wabash road. All the preliminary work is well advanced, and the project is fairly and firmly established, so that we may consider the Wabash as a certainty for Des Moines within the present year.

That the Milwaukee road will be built this year is stated upon the authority of Mr. Mitchell, President of this road, as an established fact. They will take the Marshalltown and Des Moines route, and run to a point below Des Moines for both their Council Bluffs and Kansas City lines, or the Council Bluffs line will run north of Des Moines, between the Northwestern and Chicago & Rock Island roads, and the Kansas City line will go through Des Moines; so this city is reasonably sure of having this road this year.

The Des Moines and Kansas City road is one of the most important of Des Moines' railroads. This road will be entirely independent of all other lines now centering in our city. The work will be commenced as early in the spring as the weather will permit, and rapidly pushed to completion. For several months engineers have been at work locating the line, which will leave Des Moines, running southwest, and crossing the C., B. & Q. at Osceola, Murray or Afton, thence to Kansas City, making the route about one hundred and ninety miles in length. This will give Des Moines connection with Kansas, southern Colorado, northern and western New Mexico, southern Arizona, northern Mexico, southern California and San Francisco, via the Atchison, Topeka & Santa Fe with the Southern Pacific.

With this extensive network of railroads centering in our city, together with our many natural resources, the advantages for the growth and prosperity of Des Moines are almost unlimited. The year 1881 promises to be unprecedented in railroad building for Iowa. The main lines of road in our State, nearly all of which touch Des Moines, are among the best equipped, having the most secure road-beds and the finest

rolling stock in the United States, and the management rests with gentlemen of honor and experience in their business. The railroads of Des Moines extend in almost every direction, so that we can leave our city for Chicago, by any one of three trunk lines, arriving there about the same time and without change of cars. We can go to St. Louis by two different roads, and to St. Paul, Minneapolis or Milwaukee by either of two almost direct lines; to Kansas City, Leavenworth and the Southwest; and we can take any one of three principal roads for Council Bluffs, Denver and the Pacific Coast. The many roads centering here will ere long unite in the building of a union depot. Efforts are now being made to accomplish this object, which has become an imperative necessity.

## MISSISSIPPI RIVER ROUTE.

The proposed Mississippi river route to the principal European markets is one of general interest and of great advantage to Iowa, and especially to Des Moines shippers. It is apparent that this route to Europe is growing steadily in business and in favor with the people. The fact that St. Louis is now contracting to send grain to Liverpool by New Orleans, via the barge lines down the river, for ten cents less than it can be sent to Liverpool by New York, demonstrates the capacity of that city to be the highest paying market for Western grain. This is an important item for our Des Moines shippers. If corn had the access to St. Louis which it should have, millions of dollars would be gained on this crop alone. In like manner, wheat and oats would largely decrease in rates to European markets. Competent judges, who have made the grain business a study and who have specially examined into this matter, estimate that, with this new route fully opened, the grain crops of Iowa will sell for from ten to twelve millions of dollars more annually at St. Louis than at Chicago; and this is too vast a sum to be allowed to be taken from our purse unregarded. The importance of this movement as regards its effect upon Iowa products can hardly be over-estimated, and it is now attracting general attention all over the West and Northwest. The Des Moines Board of Trade has adopted and forwarded resolutions memorializing Congress in regard to the improvement of the Mississippi river, as follows:

WHEREAS, The rapid and wonderful increase of the products peculiar to the Mississippi Valley, and especially of the territory west of that river, together with the growing demand therefor in the markets of the Old World, has created a necessity for additional and cheaper methods of transportation which is constantly becoming more urgent, and bids fair to continue with ever increasing force; and

WHEREAS, We believe that by such an improvement of the channels of the Mississippi river as will permit safely the transportation of products to foreign marts, an invaluable aid will be secured, and many obstacles which now impede progress in the transportation of products can be overcome; and

WHEREAS, We believe that the great channel of the Mississippi river does now afford one of the means for meeting this demand, and that a wise and prudent development and improvement of its capacity and capabilities would materially enlarge the advantages of that great channel of commerce as a gateway to the sea; and

WHEREAS, We believe that it is the duty of the Government, and the part of wise statesmanship, to aid in all plans to increase the facilities for moving and handling the products of the country; and

WHEREAS, Situated as we are in the great producing region, which is yearly being more fully developed by an increase of acreage, and the constant demand for our products in the countries of the Old World, we in common with the entire country are interested deeply in all that tends to foster, aid and encourage the producer. Now, therefore,

*Resolved*, That we, the Board of Trade of the City of Des Moines, State of Iowa, hereby request the Representatives and Senators from Iowa in Congress assembled to use all proper and legitimate means upon a scale so broad and liberal as will tend to secure such legislation for the speedy improvement of the channels of the Mississippi river, thereby enlarging its capacity as a commercial highway, affording cheaper and boundless facilities for transportation, creating a more healthy condition in the way of competition, and binding together in bonds of mutual interest the sections of the North and South by this line of inter-communication now widely and unnaturally separated in their mutual interests.

*Resolved*, That our President and Secretary be instructed to forward this preamble and resolutions to our Senators and members in Congress, accompanied by a petition that it be presented to the respective houses of Congress, and referred to the proper committees for their earnest consideration.

T. S. WRIGHT, } *Committee.*
H. C. COLVER, }

DES MOINES, January 5, 1881.

By Des Moines Board of Trade,

J. H. WINDSOR, *President.*

J. P. BUSHNELL, *Secretary.*

## TELEGRAPH LINES.

Both the Western Union and the American Union Telegraph Companies have offices in Des Moines, and these lines give us direct communication with the oceanic cables, and all the useful lines of importance to the mercantile world.

## TELEPHONE LINES.

Few persons have any idea of the magnitude of the business transacted in Des Moines by telephone. The average of daily connections made is about fifteen hundred. Superintendent Beech, of Chicago, will soon visit our city, and expects to give us a telephone service equal to that of Chicago or New York. The improvements proposed will probably include the new automatic service board recently tested in Boston.

## EXPRESS COMPANIES.

Both the United States and the American Express Companies have offices in this city, with connection in all directions.

## NEWSPAPERS.

In all these marvelous advances, nothing impresses the mind more than the wonderful progress in journalism, and the eminence attained by the newspapers of Des Moines, and the power which they have exerted in the growth of our city. No other city in Iowa has as many newspapers and publications as Des Moines; and certainly in proportion and extent of circulation, no other city of the same population in the country can make a better exhibit. Our papers are always alive to the interests of Des Moines. The whole editorial staff are a wide-awake and enterprising fraternity, and we predict for them a most prosperous career.

The following are the principal papers: The Iowa State Register, daily and weekly; Iowa State Leader, daily and weekly; Iowa State Journal, weekly; Des Moines News, weekly; Plain Talk, weekly; Iowa Homestead and Western Farm Journal, weekly; Iowa Staats Anzeiger (German and English), weekly; State Independent, weekly; Iowa State Tribune, weekly; The Saturday Evening Mail Car, weekly; The State Prohibitionist, weekly; The Western Jurist, monthly; The Western Newspaper Union, auxiliary publishers of Iowa and Nebraska weekly papers. The press is a potent agency in Des Moines, and is earnestly and intelligently at work to promote the best interests of the city.

## DES MOINES POST-OFFICE.

The United States Post-office and Court-house was erected a few years ago at an expense of about $200,000. It is a fine three-story stone building, with basement, and is finished and furnished in elegant style. The record of business transacted at the Des Moines office for the year 1880 is one in which our citizens take just pride, and is shown by the following statistics: General account, receipts amounted to $50,385.73, the expenses being $9,694.19, leaving a net income of $40,691.54. In the money order department there was received $94,808.80, and disbursed $399,272.39. In the mailing department, the number of letters, postal cards, newspapers, transient printed and merchandise packages dispatched amounted to 5,135,832. In the registered letter department there were received 16,290, and sent out 17,825 letters and packages. Nine carriers were employed, who delivered 2,102,277 letters, postal cards and newspapers in the city. No city in the West, having the same population as Des Moines, can show a post-office business of greater magnitude for the year 1880.

## BANKS.

The city of Des Moines has a solid financial status, and comparative statements rank us far in advance of any city in the west of the same population, in number and amount of surplus deposits. A commercial city is always in a great degree dependent upon its banking facilities. The exhibits of the Des Moines banks have proved this to be a greater financial center than many suppose. The banks of Des Moines draw from the principal mercantile and corporate institutions throughout western and northern Iowa, and furnish a safe deposit for the banks and merchants in the counties of central Iowa. Eastern exchange sold by Des Moines banks amounts to millions annually. Our city has six good banks; two are National banks, the others private; all reliable and sound, holding about one million dollars of deposits, and doing a safe business. Money was abundant throughout the past year, and could be obtained, with reliable securities, at a reasonable rate of interest. There have been no changes made in our banking institutions for several years, and their prosperity has kept pace with our city's growth. Their stockholders are among the most reliable business men of Des Moines, and their affairs are managed with prudence and ability.

## HOME INSURANCE COMPANIES.

Our home insurance companies, especially the Hawkeye and State (fire), and the Equitable (life), deserve particular mention as institutions which have done much for Des Moines, and are in themselves a credit to the city and the State. The upright manner in which their business has been transacted, and the promptness and liberality with which their losses have been settled, have induced the utmost confidence on the part of the public. There is no necessity for sending money out of the State to obtain reliable insurance on life or property. The Insurance Companies of Des Moines are conducted by substantial and honorable gentlemen of long experience in the business, and the record which they have made is an honor both to themselves and to the city.

## LOAN ASSOCIATIONS.

There are three of these associations in our city, which loan not only the surplus money of our capitalists, but also of Eastern corporations. Money can be obtained at a low rate of interest. These associations are included with the banks among the solid financial institutions of our city.

## BUILDING ASSOCIATIONS.

There are four first-class loan and building associations in Des Moines, all of which have rendered valuable assistance in building up our city. The object of these organizations is to aid any of their stockholders in their efforts to secure a home, by lending money to them at a low rate of interest, to be paid in weekly, monthly or yearly installments. The money is loaned only to stockholders. There are hundreds in Des Moines to-day dwelling in their own homes, who, but for these institutions, might not be thus fortunate.

## STREET RAILWAY.

Des Moines has a very good street railway system, and the present season, it is the intention of the company to remove the western terminus north to Brown's Addition, thence west to Cottage Grove: and the eastern terminus about a half mile east of the new capitol building; also a line directly westward to Brown's Park and the State Fair Grounds is projected.

## WATER AND GAS WORKS.

Des Moines has the Holly system of water works, and the water used is soft and pure, being taken from twenty feet beneath the Raccoon river. The water company have twenty-five miles of mains laid in the city, and contemplate the extension of them still further this year. The gas works are ample to supply the demand, even of our large corporation. There are twenty miles of pipe laid for their accommodation, but the company will extend their mains this year to meet the increasing demand for gas, which is of excellent quality. The com-

pany have a capital invested of $150,000, manufacture annually 23,000,000 feet of gas, in the production of which they consume 3,000 tons of coal and 6,400 bushels of lime. The coke remaining finds ready sale at a fair price.

## MANUFACTURING.

Nothing is more notable of late than the rapid development of manufacturing in the West. Des Moines has every element necessary for making a great manufacturing center. In the mere item of fuel, Des Moines has the advantage over every city in the West. Good screened coal can be had for five to seven cents per bushel, and best lump coal for eight cents. No location in the United States can furnish cheaper or better food for operatives. All articles of food and provisions are in the market at greatly reduced rates, in comparison with the Eastern markets. The success of the factories already established and the rapid settlement of the adjacent country, are warrants for the establishment of many more. We notice, with pride, that Des Moines manufactures are equal in appearance and quality to the best products of Eastern manufacture. Manufacturing lies at the foundation of industrial life in all towns that flourish. They are the one thing needed to complete the independence of the West and to establish her prosperity upon a sure foundation, and every addition to them should be welcomed. We should encourage all new enterprises, and in every possible way endeavor to induce others to come among us, as well as to encourage our factories already established by patronizing them, so far as possible, in preference to foreign manufacturers.

The City Council has recently passed the following resolution:

*Resolved*, That in the opinion of the Council it is wise and competent for the city to enter into contracts with any party or parties who shall propose to erect and maintain within the city manufacturing establishments, employing a considerable amount of capital, and which shall give employment to such an amount of labor as shall make the matter of public importance, by which said manufacturing establishment shall be released or exempted from taxation for municipal purposes for a term of years, and that this Council will favorably consider any proposition from persons or corporations proposing to erect or establish such manufacturing establishments.

## STATISTICS OF MANUFACTURING.

The following table gives the statistics of manufacturing in Des Moines for the year 1880:

| | | | |
|---|---|---|---|
| Agricultural implements | $ 36,200 | Coal mining | 1,620,000 |
| Alcohol works | 480,000 | Contractors and builders | 1,776,500 |
| Artificial stone and sewerage pipe | 70,125 | Confectionery | 38,540 |
| Bakeries and cracker factories | 104,362 | Cooperage | 39,600 |
| Barbed wire | 183,600 | File works | 5,700 |
| Blacksmithing | | Flour mills | 136,180 |
| Boiler works | 34,040 | Foundries and machine shops | 196,272 |
| Boots and shoes | 36,350 | Furniture | 110,900 |
| Brass works | 37,950 | Hair goods | 10,400 |
| Breweries | 8,472 | Harness and saddlery | 38,900 |
| Brick yards | 146,000 | Hominy mills | 65,600 |
| Brooms | 103,500 | Hoop skirts | 5,700 |
| Carriage factories | 12,500 | Job printing | 160,800 |
| Cigar boxes | 47,874 | Lithographing | 30,100 |
| Cigars | 4,300 | Marble works | 97,900 |
| Clothing (merchant tailoring) | 179,500 | Millinery | 287,500 |
| | 165,780 | | |

| | | | |
|---|---|---|---|
| Newspapers | 256,400 | Scales | 19,500 |
| Oat meal mills | 100,000 | Seals, stamps and locks | 4,000 |
| Oil mills | 95,000 | Shirt factories | 6,400 |
| Painting | 137,600 | Soap works | 28,800 |
| Picture frames | 8,860 | Spice mills | 55,800 |
| Planing mills | 125,400 | Stair rod and carpet fasteners | 2,589 |
| Plumbing and gas fitting | 142,134 | Stereotyping | 16,500 |
| Pork packing | 2,456,000 | Syrup and glucose works, four months in operation | 21,812 |
| Potteries | 44,800 | Tin and sheet iron works | 174,400 |
| Publishers | 111,300 | Pickles and vinegar works | 12,600 |
| Pumps | 26,000 | Wagons | 20,700 |
| Saw mills | 25,400 | | |
| Total | | | $9,569,630 |

## COAL.

Of the three great coal measures which underlie the Des Moines River Valley, the greatest mining point is in the vicinity of Des Moines. The beds here often appear uncovered at the bottoms of our streams, and crop out in many places from our hillsides. In quality it excels any other found west of the Mississippi and in quantity is inexhaustible. The city and adjacent country are underlaid with heavy deposits of coal. Here we have the three measures, while most of the workable points have but one or two of them. The measures worked most profitably are the second and third, where the coal varies from three to eleven feet, and is free from sulphuric and argillitic matter. There are fifteen mines in operation, employing about seven hundred men, who mined five hundred and forty-five thousand tons, valued at $1,020,000. Coal for manufacturing purposes can be had at $1.50 per ton, and slack at 40 cents per wagon load.

## WATER POWER.

The first step for Des Moines to take toward becoming an important manufacturing town is to provide cheap water power for the operation of machinery.

Sections 1236 to 1240 of the Code of 1873 (chapter 79, laws of 1872) confer the most ample power upon water-power improvement companies. They have the same power as railroad companies to condemn land for the right of way for canals, water-ways, buildings and other necessary uses. About twenty years ago, before Des Moines was a city, Edwin Hall obtained by grant from the Legislature, convened at Iowa City, and by license from the Commissioners of Polk County, the franchise which gives the present water power on the Des Moines river within the limits of the city, a power which should to-day keep in motion manufacturing enterprises sufficient to give employment to many thousands, and profitable investment for unlimited capital. Not a twentieth part of the power has ever been utilized, and yet it has been a profitable investment. The flouring mill, the land adjacent to the dam and the west half of the dam sold recently for $20,000. The east side of the river, having the same power, is now idle, and presents a rare opportunity to locate manufacturing enterprises, for we have here so many undeveloped resources. It is believed by our most competent engineers that, by raising the dam one or two feet, a fall can be secured that will give power sufficient to operate almost unlimited machinery. This can be done under charter. It would be an easy thing for a competent

engineer to take the water from the dam down both banks of the river. Intelligent men have estimated that the dam can be raised, all the necessary right of way secured, and the two water-ways constructed from the dam to the mouth of the Raccoon river for less than $40,000, capable of running all the machinery that requires power within reach, that would pay a reasonable rent for the use of the water. A water power company could rent the use of its water power to every such factory at from one-half to one-eighth of what steam power costs, to say nothing of the manufacturers' original capital that is swallowed up in the purchase of engines, fuel, etc. While this is a feasible plan, and apparently the most practicable for securing the desired water power, we must not forget the Raccoon river, which flows at a rapid rate, is soft water, and can readily be made of great utility in manufacturing.

## CLAYS.

The clays of this vicinity add no small value to the industries of our city. Go wherever you will, you soon arrive at extensive *brick yards*, and the buildings of our city, small and great, demonstrate their excellence and stability. This resource last year aggregated $103,500. Not only is clay for the manufacture of common brick abundant, but the finest quality of *white*, or "*Milwaukee*," *brick* are made in our vicinity. *Fire clay* abounds in connection with our coal deposits, and the best and most valuable of coal measure clays—*potters' clay*—is found of a superior quality. The products of our extensive *potteries* find markets hundreds of miles away, and last year's business footed up the handsome sum of $44,800. We have the largest *drain tile works* in the State, and their product is greatly appreciated by farmers in every direction. This is also true of our *artificial stone and sewerage pipe manufactories*, and their total business last year amounted to $70,125. Clays have also been tested which proved unexcelled for the manufacture of mineral paints. It is a well-known geological fact that where bituminous coal exists in any quantity there is almost sure to be found in the upper strata, near the surface, excellent clay, suitable for the finer grades of brick and *terra cotta manufacture*. Actual experiment has shown that all around our city, near the surface of the ground, there exists an inexhaustible supply of this clay. Parties who have made the ceramic arts their study for years, in the interest of terra cotta manufacture, and have visited all the leading establishments of Europe, where clay is manipulated for manufacturing purposes, say our clays seem peculiarly fitted for this work, and tests prove them of a better quality than the European clays, in some localities imported to manufacture the finer grades of pressed brick, terra cotta and *fancy pottery wares*. There is no article that can be manufactured in our city which will do more to help make it a beautiful city, and at the same time yield a better profit for the capital, skill and energy expended, than the manufacture of the finer grades of brick, terra cotta pottery and the other ceramic arts; and there is no reason why the Des Moines of the future should not be as noted for its pressed brick as is Philadelphia or Baltimore. Already several of our most extensive brick manu-

facturers have made arrangements to manufacture an immense number of *pressed* and *fire brick* during the coming season, for the convenience of the contractors of our city.

## SANDS.

Des Moines has sufficient inducements for capital and skill to test the virtues of sand found in this vicinity. By actual test this sand has proved capable of making glass of a more brilliant whiteness than the sand brought from other States. This sand is found in large deposits near the city. The quality being unexcelled and the quantity inexhaustible should certainly be sufficient to induce a large establishment for the manufacture of glassware in the near future. Our sands—lying in great bars along the rivers—are one of the most necessary requisites for the manufacture of artificial stone and mortar for building purposes.

## OUR MANUFACTORIES.

We enumerate the leading manufactories, but many other industries than those cited are doing very profitable business and making notable advancements:

*Flouring Mills.*—While we ask home patronage for all our mechanics and manufacturers, we especially claim the same for our millers. Our mills have incurred the expense of obtaining as good machinery for cleaning wheat and for manufacturing flour as any in any State in the Union. And they make as good winter or spring wheat flour, either by new or old process, as any other. Let us as a city establish the character of firmly supporting our home manufacturers, and soon all departments will be largely represented among us.

*Oat Meal Mills.*—One of the most important industries of Des Moines is the manufacture of oat meal. The oat meal manufactured here is of the very best quality, and that it is fully appreciated is evinced by the fact that their works are in operation both day and night, to keep pace with their orders. They have recently erected an elevator with capacity for 280,000 bushels, along the south side of which runs a side-track of the C., R. I. & P. R.R., which greatly facilitates the handling of grain.

*Hominy Mills.*—There is no better hominy than that produced by our justly celebrated mills. They have the exclusive home trade, and the demand from abroad is constantly increasing.

*Glucose Works.*—Our Glucose Company have a structure one hundred and sixty feet long by one hundred feet wide. The building is of brick, three stories high, and very substantially built. These works are as finely finished as any in the United States. With prosperity to this enterprise comes a certain degree to Des Moines. The company have increased facilities in their new building, the capacity of which is 2,500 bushels of corn per day. There are two distinct departments in the building, the starch department and the glucose department. Either of these can be run separately, the one for the manufacture of glucose and syrups and the other for the manufacture of laundry and corn starch. The company are also preparing to make sugar and syrup from amber cane. They intend to furnish farmers with the cane seed in order to

stimulate its cultivation. Amber cane is the best and most valuable of canes for either sugar or syrup. The juice that will make one gallon of amber syrup will make 8⅛ pounds of sugar and 2⅜ pounds of uncrystallized syrup.

We also have encouragement for the establishment of a *Beet Sugar Manufactory* in Des Moines during the coming season. This sugar is of a most brilliant whiteness, true, firm crystals, and superior sweetness. It is a well established fact that the *sucros* of beets exceeds that of all other vegetables, and as they are easily grown and their yield wonderfully prolific, we can expect an article of their manufacture here to be of unrivaled quality, and one that will fully meet the demand for a pure sugar of home manufacture, and the source of a profitable industry to Des Moines.

*Starch Factory.*—An Eastern company has lately secured forty acres of ground and is erecting a building 80 by 280 feet, six stories high, and two other large buildings; also an elevator with capacity for 150,000 bushels of grain. They will use at least 3,500 bushels of corn daily. It will exceed the capacity of any like manufactory west of New York, and be ready for operation the coming season. The company has abundant capital, and will operate and increase its works according to the demands of trade, however large they may be. Undoubtedly this is one of the greatest acquisitions Des Moines can have.

*Cracker Manufactories.*—All kinds of crackers are manufactured, by two factories in Des Moines, extensively for the trade. No goods of the kind ever sold excelled them, and they are becoming more and more popular at home and elsewhere, as they are introduced.

*Iron Works.*—In making an enumeration of our manufacturing interests, among the most important are our iron works. This branch of business has been constantly increasing. The trade has made the enlargement of every capacity necessary, and they have made additions of the most approved machinery for iron working. Our iron manufacturers ship machinery to all parts of the West.

*Plow Manufactories.*—We have several plow factories in our city, but they are able to supply the demands of the trade in this vicinity to a limited extent only. Their plows are of the best quality of material and workmanship, and well adapted to our soil. They also manufacture sulky plows, cultivators, harrows, check-rower attachments to corn planters, and other improved agricultural implements of most approved patterns.

*Barbed Wire Factories.*—Among the largest and most noted industries of our city is the manufacture of barbed wire for fencing purposes. There is one establishment located here which has manufactured 50,000 pounds in a single week. The sales last year amounted to $183,600.

*Wagon and Carriage Factories.*—Des Moines has several houses engaged in this branch of manufacture, and we have no hesitation in saying that their work is first class in every respect. The finest carriages upon our streets are made by Des Moines workmen. Our firms manufacture first-class farm and spring wagons and buggies, and all sorts of vehicles, from a phaeton to a heavy transfer wagon.

*Scale Works.*—Another of our institutions for the manufacture of articles too long imported is the Scale Works. Their specialty is the

manufacture of standard farm scales, which for accuracy and durability are not excelled by any received here from Eastern markets. We find in their large buildings every facility for the manufacture of scales in first-class style, and they are turning out work that is a credit to home industry. In addition to farm scales they manufacture railroad track, hay, coal, stock, hopper, miners' and portable warehouse scales.

*Tinware Manufacturers.*—Our Des Moines manufacturers in this line aggregated, in sales, last year, $174,000. This industry in Des Moines is unrivaled by any other city west of Chicago, especially for workmanship and quality of goods, and during the coming season it will have increased facilities.

*File Works.*—We have works which manufacture files exclusively. The material used is the best Ames steel. They are constantly filling orders for jobbers in all directions. The works are operated by steam power, and have a large capacity.

*Linseed Oil Mills.*—The sale of flax seed in this vicinity last year was over 300,000 bushels. We have two linseed oil mills, which have a capacity for working five hundred bushels per day, and manufacture nearly two hundred and fifty thousand gallons of oil per annum. They also ship thousands of bushels of seed to Eastern markets. The residue of the seed is manufactured into oil-cake, and is principally shipped to foreign markets. This industry is constantly increasing, and it is expected that a greater amount of seed will be raised and ground this year. It provides a market for one of the most profitable crops the farmer can raise, and furnishes employment for a large number of hands.

*Iron Cornice Manufacturers.*—There are two factories manufacturing iron cornice in our city, and their work stands unsurpassed—an evidence of which is the cornice work on the principal edifices of our city.

*Slate Roofing.*—The Des Moines slate roofers are unrivaled for their artistic and beautiful work. Many of our public buildings and finest residences are roofed with slate.

*Planing Mills.*—The manufacture of sash, doors, blinds, stairs, etc., has three large representatives in Des Moines. In one, over fifty thousand doors are made annually, and this is a small item to the gross amount of manufactured goods. They send invoices to every part of Iowa, and into many of our Western States and Territories, and employ over one hundred men.

*Pump Factories.*—We have two factories, one for the manufacture of wooden and the other iron pumps. Their goods are of excellent quality, and the demand for them is constantly increasing. The aggregate sales for 1880 were $26,000.

*Creameries and Cheese Factories.*—The creamery business has sprung up with such sudden advancement and gained such wonderful proportions that we cannot easily comprehend its magnitude. There is hardly any direction but you can find a creamery adjacent to Des Moines, and two of the largest in central Iowa are located within our city limits. We have no large cheese factory in this vicinity, although there is cheese manufactured of excellent quality, and the demand and necessaries for its manufacture far exceed the product.

*Spice Mills.*—In proof of the extensive trade done in Des Moines in this business, we call attention to the mills which represent this industry in our city. It is to the great satisfaction of all that we can claim for every branch of their business all the latest and best methods of manufacture known, thus bringing their products to unquestionable perfection. Baking powder is manufactured by these mills, which has been pronounced by the highest authority, from practical tests, to be of the highest standard of quality in the market.

*Breweries.*—Our breweries are four in number, in addition to which there is to be another built the coming season. They supply the entire trade of this vicinity and many points along the railroads. Their aggregate sales for last year amounted to $176,100.

*Distilleries.*—We have but one distillery, whose capacity is about 5,000 gallons of alcohol per day. They have accommodations for and feed from one to two thousand head of cattle each season. They manufactured over 500,000 gallons of alcohol last year.

*Tanneries.*—Among the many varieties of productive industry of particular value to the city is our tannery. The company are constantly increasing their facilities, as the business is rapidly enlarging. They provide a home market for hides and pelts equally as good as the Eastern shipments. Their articles of manufacture are first-class.

*Steam Dye Works.*—We have two steam dying establishments, which are prepared to do coloring in all its details. In addition to their extensive custom work they do a large business in re-coloring shelf goods for merchants and milliners.

*Cigar Manufactories.*—It is a well known fact that our cigar manufacturers' brands are equal to any made in the West, and their trade, which is constantly increasing, amounted last year to the sum of $380,400.

*Confectionery Manufactories.*—Des Moines has two manufactories making all of the most celebrated candies and confections which are being used, and have increasing orders from every direction.

*Soap Factories.*—No article manufactured has a more ready and sure sale than soap, and the product of our two soap factories has rapidly grown in public favor, as is evinced by the large orders constantly received by them. They manufacture linen, laundry, castile, glycerine, cocoanut, and various other toilet soaps, and the trade pronounce them as good as any like articles sold. With their present machinery they can manufacture about eight tons per week.

*Churns and Butter Workers.*—No better goods, in this line, can be found anywhere than are manufactured in Des Moines. This industry is one of importance, and the manufacturers are increasing their facilities to meet their constantly growing trade, which is extending in every direction.

*Trunks and Paper Boxes.*—This industry has been but recently established in our city, but from the first-class goods they are sending out, and the demand there is for such goods, we predict that in the near future Des Moines will have one of the largest and best trunk and paper box factories in the country.

## BUSINESS.

Des Moines has rapidly yet substantially grown into prominence as one of the leading cities of the West. Her progress has of late been most marked in the direction of wholesale trade and manufactures, all of which are in a prosperous condition. New factories are springing up, and all have orders from home and abroad for their fullest capacity. Surplus labor is finding employment, and new enterprises are entered into with characteristic American energy. The principal business of the city is transacted on the level lands on each side the Des Moines river. A great volume of traffic is carried on here, and Des Moines merchants do a large and remunerative business. Who can tell of the future products of our city? What their aggregate and what their worth? What better location for manufacturing enterprises can capital desire? Here, also, is the confluence of the Des Moines and Raccoon rivers, affording ample water power. There is an unusual unanimity of pride and ambition here, and every citizen congratulates himself that he is a resident of Des Moines. It is plain that this city is to be a commercial as well as a railway and manufacturing center. There has never been a period in the history of Des Moines, when business men in such large numbers have come within our borders, many establishing large industries, and many more expecting to locate here as soon as time and circumstances will permit. In view of the many railroads which now enter Des Moines, and of those which will be completed to this point during the ensuing year, we are led to inquire the reason for this desire on the part of so many railroad companies to reach our city. Is it not because of our location in the center of the most productive area on the continent, and in one of the best stock-raising and grain-producing regions of the world, and on the line of the great continental thoroughfares? With the rapid growth which Des Moines has made in the past few years, and with the many iron arms extending in almost every direction, reaching out for the trade not only of Iowa, but of the entire Northwest, for wholesaling goods and distributing manufactured products, may we not congratulate ourselves that the business men, throughout the regions tributary to our city, rejoice with our enterprising business men, that Des Moines is to be the commercial center of the Northwest? Business in Des Moines rests upon a solid, healthful basis, the trade aggregating tens of millions of dollars annually, and rapidly increasing. The immense trade which centers here is supported by the country for hundreds of miles in extent, reaching out into the territories beyond. It is true that there must be a great commercial center somewhere in this vicinity, and we are far enough from Chicago and Cincinnati on the east; St. Louis or Kansas City, south; St. Paul, Minneapolis or Milwaukee, north, with no intervening competing points, and the entire West and Northwest tributary to make this the favored spot; and the time is not far distant when Des Moines, as a great railway center, manufacturing and commercial city, will be numbered with those cities whose population is counted with the first cities in the Union.

## THE CITY'S TRADE.

Our mercantile transactions are assuming immense proportions—necessitating the employment of extra capital and labor.

### BUSINESS STATISTICS.

| | | | |
|---|---|---|---|
| Agricultural implements | $ 895,000 | Hotels | 250,000 |
| Alcohol (wholesale) | 484,800 | Ice | 95,000 |
| Apples (wholesale) | 161,000 | Jewelers | 69,000 |
| Barbed wire | 280,000 | Leather and shoe findings (wholesale) | 45,000 |
| Beer | 295,500 | Lumber | 1,573,000 |
| Blacksmiths | 87,900 | Meat markets | 129,000 |
| Bookbinding | 58,000 | Millinery | 487,500 |
| Books and stationery | 578,900 | Notions (wholesale) | 430,800 |
| Boots and shoes | 345,000 | Oils (wholesale) | 195,100 |
| Bottling works (soda, mineral water) | 40,700 | Pianos and organs | 395,000 |
| Breweries | 176,100 | Pickles and vinegar (wholesale) | 22,600 |
| Butter and eggs | 274,500 | Pottery wares | 68,000 |
| Carpets and oil cloths | 185,140 | Pork and lard | 2,456,000 |
| Clothing | 215,000 | Pumps and lightning rods | 35,000 |
| Cigars and tobacco | 380,400 | Paper (wholesale) | 265,000 |
| Coal and coke | 1,055,850 | Rendering works (wholesale) | 55,000 |
| Commission goods | 46,000 | Saddlery hardware | 95,000 |
| Confectionery | 158,500 | Sash, doors and blinds (wholesale) | 187,400 |
| Crockery and glassware | 175,000 | School furniture | 35,000 |
| Drugs (wholesale) | 370,000 | Seeds | 67,000 |
| Druggists (retail) | 155,350 | Sewing machines | 87,565 |
| Dry Goods | 801,350 | Soap (wholesale) | 28,800 |
| Flour and feed | 624,000 | Second hand goods | 77,000 |
| Furniture | 580,000 | Spices and baking powder (wholesale) | 55,300 |
| Grain dealers | 1,500,000 | Syrup and glucose (wholesale) | 121,812 |
| Grocers (retail) | 1,469,000 | Tinware (wholesale) | 174,400 |
| Grocers (wholesale) | 1,800,000 | Transfer companies | 103,600 |
| Gunsmiths | 15,350 | Undertaking | 18,950 |
| Harness and saddlery | 93,500 | Wall paper | 487,000 |
| Hardware and stoves | 240,000 | Wines and liquors (wholesale) | 120,740 |
| Hardware (wholesale) | 477,000 | Woolen mills | 50,000 |
| Hats, caps and furs | 55,700 | | |
| Hides and Tallow (wholesale) | 280,000 | | |
| TOTAL | | | $21,367,497 |

### BUSINESS—WHOLESALE AND RETAIL.

| | | | |
|---|---|---|---|
| Agricultural implements | $ 327,500 | Hardware | 477,000 |
| Alcohol | 180,000 | Harness and saddlery hardware | 85,000 |
| Apples | 161,000 | Hides, pelts and furs | 290,000 |
| Barbed wire | 161,000 | Leather and shoe findings | 37,000 |
| Beer | 190,500 | Lumber | 895,000 |
| Books and stationery | 176,100 | Millinery and fancy goods | 237,000 |
| Boots and shoes | 121,400 | Notions and fancy goods | 332,800 |
| Brick | 143,500 | Oils | 195,100 |
| Brooms | 103,500 | Paper | 260,000 |
| Butter and eggs | 22,500 | Pianos and organs | 212,000 |
| Carpets and oil cloths | 274,500 | Pickles and vinegar | 22,600 |
| China, glass and queensware | 45,000 | Pork and lard | 2,456,000 |
| Cigars and tobacco | 58,500 | Pottery wares | 61,800 |
| Clothing | 280,000 | Rendering works | 55,000 |
| Coal and coke | 55,800 | Soap | 28,800 |
| Confectionery | 856,000 | Spices and baking powder | 55,300 |
| Crackers | 98,500 | Syrup and glucose | 21,812 |
| Drugs | 38,700 | Tinware | 174,400 |
| Dry goods | 370,000 | Wall paper | 387,000 |
| Flour and feed | 153,000 | Wines and liquors | 120,740 |
| Furniture | 397,000 | Woolens and flannels | 50,000 |
| Groceries | 373,300 | | |
| TOTAL | 1,800,000 | | $12,325,452 |

### BUSINESS SUMMARY.

| | | | |
|---|---|---|---|
| Manufacturing | $9,431,630 | Coal trade | 1,055,850 |
| Wholesale trade | 12,325,452 | Improvements | 2,259,039 |
| Retail trade | 9,042,045 | Pork packing | 2,456,000 |
| Grain and produce | 2,665,100 | | |

*Grain and Produce.*—It is impossible to give full statistics of this great exchange in our city. Hundreds of farmers come here and send their products direct to Eastern markets by the car load. The figures shown in the summary below are given by dealers alone.

GRAIN AND PRODUCE EXCHANGE.

| | |
|---|---|
| Apples | $ 164,000 |
| Butter and eggs | 849,000 |
| Flour and feed | 624,000 |
| Grain | 1,587,000 |
| Hominy | 15,600 |
| Oat meal | 100,000 |
| TOTAL | $2,839,600 |

The corn used by our glucose and alcohol establishments is not included in the above estimate, and would amount to $150,000, and this year, from the increased facilities of the factories already located here, as well as the starch works and new alcohol works to be in operation, the daily consumption of corn will amount to an increase of at least 12,000 bushels.

*Pork Packing.*—Des Moines being favorably situated, and having good railroad facilities for receiving as well as for sending their product East and South, has no rival in the West in facilities for pork packing. The city ranks among the most extensive pork packing cities in the Union, and our establishments equal in extent and capacity some of the largest houses in the country. The close of the last packing season showed a total of nearly 300,000 hogs packed. The packing will continue throughout the summer, their immense ice houses being filled, preparatory to the summer's work.

*Lumber Trade.*—The great number of cities and towns which have sprung up in all directions about us, and add the enormous outlay yearly required for our city improvements; and then note that our dealers are the principle means through which to secure the materials for these great improvements, and you will then have some idea of the greatness of our city's lumber trade. The sales last year, wholesale and retail, amounted to $1,575,000.

*Wholesale Groceries.*—The fast-increasing and far-extending trade of our wholesale grocers is mainly due to increased demand caused by a larger territory receiving supplies from Des Moines. There are four wholesale houses which aggregate about $2,000,000 worth sold in 1880, and our trade in this line far exceeds that of any other city in the State. There is a gradual increase of home productions used in the grocery line in Des Moines. We have one of the largest amber cane syrup and sugar refineries, a starch factory, vinegar and pickle works, soap manufactories, creameries, smoked meat establishments, etc., and each year records more home-produced goods handled, as their business takes gigantic strides forward.

*Wholesale Furniture.*—Prominent among the most successful business houses of the capital city are the wholesale and retail furniture establishments. They rank among our most capacious business blocks, and most enterprising and able business men.

*The Wholesale Millinery* interests of our city are represented by a

number of well established houses whose business is constantly increasing. Their sales for last year amounted to $237,000.

*Wholesale Notions.*—These firms are composed of practical, energetic business men, who are ever on the alert to enlarge the ever-increasing circle which bounds their trade. Last year their sales aggregated $330,000.

*Wholesale Druggists.*—The stock they carry is so complete that they can fill orders of a large and varied description without delay. Their aggregate sales last year amounted to $370,000.

*Wholesale Dry Goods.*—The country opened up in the Northwest is rich in farm lands, whose productiveness is but just becoming known; a greatly increased influx of population may be confidently expected. This presents new fields and large opportunities to the Des Moines wholesale trade. Within the past few months Des Moines has received, in addition to various other business houses, two wholesale dry goods establishments.

*Boots and Shoes, Wholesale.*—Des Moines has two wholesale boot and shoe houses, each of which is doing a thriving business. The extent of their trade includes most of and is rapidly extending throughout the West. Their sales last year aggregated $245,000.

*Wholesale Saddlery and Leather.*—Our wholesale saddlery and harness establishments are a credit to Des Moines. They handle first-class goods and are controlled by men of unquestioned integrity.

*Seeds, Wholesale.*—Last year's record shows the total amount for seeds sold, at wholesale, to be $67,000. We have but one general seed house, most of whose seeds have been grown in this immediate vicinity, and arrangements have been made for the coming year to enter more largely into this branch of the business, that their patrons may rely upon obtaining fresh seeds which are absolutely pure.

*Wholesale Jewelry.*—Des Moines has recently added to her wholesale trade a jewelry establishment, which is prominent among the dealers of Kansas and Nebraska as well as Iowa.

*Transportation Companies.*—We have four very able and well disciplined transfer lines, that handle the immense amount of freight to and from the business houses and manufactories and the railroad freight depots.

*Omnibus Line.*—No better line of omnibuses can be found in any part of the country than in our city. They are always at the depots at the arrival and departure of trains, day or night, to take passengers to any part of the city. They have kept pace with the city's progress in furnishing transportation accommodations for all occasions.

*Ice Companies.*—Besides thousands of tons put up by our pork packers, brewers, and other immense consumers, we have two companies that deliver ice to any part of the city, and fill orders by car loads to cities east and south. The ice which forms on our rivers is very clear and solid, and from one to two feet in thickness. The sales last year amounted to $75,000.

## HOTELS.

No better index to the prosperity, progress and enterprise of a city can be found than in the character of its hotels. A large percentage

of Americans reside either permanently or temporarily in hotels, which are justly regarded as the temporary homes of the traveling public. Des Moines is noted for her fine hotels, whose accommodations excel those of any other city in the State, and they are finished in a more elegant style, while their tables are celebrated for presenting all the luxuries the market affords. The locations, accessibility and excellent management have brought them a reputation and popularity second to none in the State. But our hotel facilities, unusual as they are, are no more than we need for our daily business as a city, and we are not at all times able to furnish good hotel accommodations to all comers, for with the numerous railroads centering here, rendering the city accessible from all portions of the State, State meetings of various organizations are held here in all seasons of the year, and it often occurs that several are in session at the same time, and our hotels are inadequate at such times to furnish accommodations to all who come. Already enlargements and improvements to our hotels are in progress, and another large first-class hotel, to supply the demands of the traveling public, we understand, is to be erected during the coming season.

## DES MOINES AS A HOME.

Des Moines is at present fostering a spirit of public improvements unparalleled in its history of a quarter of a century. If any person will take the pleasure to ride into the residence portion of our city, he will be surprised at the evidences of growth and permanent prosperity everywhere abounding. More good, substantial residences have been completed during the last twelve months than ever before in the same period. Our climate, healthful as it is, is productive of energy and enthusiasm. We have an exhilarating atmosphere, and our citizens are possessed of health and vigor. This is one of the greatest inducements that win strangers to settle here for a permanent, healthful home. Where but three years ago was only a lonely forest, to-day stand fine brick and frame residences. On every resident street you can find homes worth from $10,000 to $25,000 each, while those valued at $5,000 can be seen on almost every square.

Our residences have increased from a few hundred to over five thousand within the last decade. Our public school buildings now number eight, and afford room for five thousand pupils. These buildings are of brick, of elegant and commodious character, having all the modern improvements. There are in the city about eight thousand children of school age, and over 60 per cent of them are enrolled. In addition to these we have private schools for all classes and ages, and for those wishing to prepare for business. These schools and colleges have an attendance of over seven hundred pupils.

Our facilities, too, for all entertainments, whether concerts, lectures, operas or theaters, are most complete, having elegant auditoriums, with all the usual and required appointments afforded in the largest cities, with capacity to accommodate over 5,000 persons. Thus, with our churches, some thirty in number, most of which have elegant and commodious edifices of worship, our schools, our pleasant homes and our social advantages, we invite all to come. Homes are rapidly covering our

hills and adding to the beauty and wealth of the place. Each new residence improves those preceding, and in all elements, material, social, educational and otherwise, the city was never more prosperous. Every industry centering in Des Moines is marked by increasing activity. Situated as she is, and supported by so rich a country, the most sanguine anticipations of her citizens will be realized.

## REAL ESTATE.

Our real estate changes are marked and astonishing. The advancement in values during the last few years has been great. There are numberless inviting locations surrounded by native groves, overlooking beautiful streams, or the business portions of the city, for residences; and lots, though in great demand, can be obtained at reasonable rates in a desirable location for business or manufacturing purposes.

## CHURCHES.

The virtue of the people is as marked as their intelligence, which is evidenced in the number and efficiency of the churches, the number and vigor of the Sabbath-schools, the special attention given to the subject of temperance, the moral reforms of the times, and the missionary and charitable movements of the age. Des Moines is well supplied with churches, there being over thirty congregations, representing the various Protestant, Catholic and Jewish denominations, most of them having elegant and commodious edifices for worship. The church buildings are valued at $350,000, and are capable of seating sixteen thousand persons, with an aggregate membership of nearly ten thousand.

## COLLEGES AND SCHOOLS.

*The Callanan College* is an educational institution which was organized here by the munificence of Mr. James Callanan, who donated $20,000, and other citizens who also gave liberal sums toward this object. The institution is devoted chiefly to the education of young ladies, and the boarding department will be restricted to ladies; however, provision is made for the preparation of young gentlemen for college or business. The curriculum embraces music, the arts, scientific, literary and classical courses. The college property embraces the extensive and beautiful grounds overlooking the city, and including a charming view of our rivers and hills beyond. Central and yet secluded, it is admirably adapted to the wants of such an institution.

*The Des Moines University* is a well founded institution of learning, under the control of the Baptist denomination. It has regular classical and scientific courses, and a preparatory department. It is pleasantly situated on a beautiful elevation. The grounds are an excellent selection, the home of a native grove, and the position commands a grand view of the city and surrounning country.

*Public Schools.*—Des Moines has eight large, fine school buildings, which cost over $400,000, and the ground they occupy over $100,000 more. They require sixty-five teachers, who give instruction to more

than 5,000 children. The number of children of school age is about 8,000. This gives an average (including one thousand in attendance at our colleges, Catholic schools, and various other private schools) of 75 per cent of children of school age in attendance.

*Business Colleges.*—A good, thorough, practical business education is what every person needs to fit him for active business life, and we know of no better place to obtain it than at either of our Business Colleges. Book-keeping, business arithmetic and law, short-hand and telegraphy, penmanship and correspondence are all taught with thoroughness.

*Private Schools.*—We have several private schools which have a good number of pupils. Prominent among these are two Catholic schools, St. Ambrose and St. Francis, which have fine brick buildings, with all modern improvements, and are centrally located.

*Music Schools.*—Our schools of music have each a very central location, and their directors are among the most proficient in the accomplishments of musical study and artistic rendition in the West. They are all well attended, and many pupils come from abroad to further their studies under the unexcelled directions of our Des Moines teachers.

## PUBLIC LIBRARIES.

One of the most beneficial and complete sources of entertainment, progress and culture, is afforded by the libraries of the city. Here we have our celebrated State Library, which ranks fifth in size and importance among the law libraries of the Union, and attorneys from other States often come or write here for references. The scientific, historical, fiction, biographical and record departments are also well filled. We have also a well selected and exceptionally large city library, in addition to which is kept a file of the leading monthly and weekly magazines, and our city publications. The State Arsenal has the Record Library of the Wars of the United States, all of which are for public reference.

## SOCIETIES AND ORDERS.

Far above the proportion generally are the benevolent and charitable societies and orders of Des Moines. They are all strong organizations, and have as a rule elegant and commodious halls for meetings, and accommodations for large gatherings. Quite a number of the orders have three strong, influential lodges, while nearly every society has representative bodies.

## HOSPITAL.

In this connection, we with pleasure state that, by the charities of our citizens, there is sustained and managed, very creditably to the managers and our city, an institution known as the Cottage Hospital. Any person who is injured by accident, or becomes sick and needs assistance in our midst can there find a home with experienced and kind hands to take care of him, at the same time receiving the best medical treatment, which is furnished the institution by the members of the Polk County Medical Association.

## FIRE DEPARTMENT.

The force consists of twenty-six men, including the Chief. They are well equipped, and the hose houses have recently been furnished with 3,000 feet of new rubber and cotton hose. The horses are kept constantly harnessed, and the drivers sleep in a room immediately above, in which is a gong that sounds by connection with the telephone. The harness on the horses is fastened everywhere with snaps, so that hitching up is the work of an instant. There were thirty-four fire alarms from January 1, 1880, to January 1, 1881. It was a year singularly fortunate, as the total loss amounted to the meagre sum of $6,188 50. Much is due to the efficiency of our fire boys that the sum was not greater. A great many fire extinguishers are kept in conspicuous places in the hotels and public buildings, and whenever needed have proved very useful. Our city is well supplied with water by the celebrated Holly system.

## BRIDGES.

We take pleasure in stating that we have five iron bridges, six hundred feet in length, spanning the Des Moines, and two substantial structures bridging the Raccoon, all of which are free to public travel. There will also be two new bridges built during the present year, which will facilitate travel, and make the immense throng crossing our present structures more scattered, so that farmers can enter the business parts of the city by more direct roads.

## SIDEWALKS AND SEWERAGE.

In all directions throughout the city you will find convenient, well laid sidewalks. Although generally built of heavy, solid pine lumber, many have been taken up and replaced with stone or concrete. During the last year much was done in the way of sewerage. We have now twice as much of the city sewered as any other city of Iowa of its area.

## CEMETERIES.

The Woodland Cemetery is located in the northwest part of the city; is well adapted, gently undulating land. There are many fine decorations throughout the grounds. The Catholic Cemetery lies immediately north of the Woodland. The Jewish Cemetery lies adjacent to the northwestern part of Woodland.

## IOWA STATE FAIR GROUNDS.

The location is at Brown's Park, one mile west of the city limits. The C., R. I. & P. R.R. runs frequent and regular trains to the grounds during the Annual Fair of the State Agricultural Society. The location is extremely favorable for an exhibition of the products of the various departments of agriculture, and for a full attendance of farmers from every locality in the State. For the first time in the history of the

State Agricultural Society, the Fair Grounds are located at a point easily accessible from all directions, and the unprecedented attendance during the last two State Fairs clearly indicates that the public appreciate the change. The grounds contain nearly one hundred acres, including a natural lake covering three and a half acres, which has an average depth of sixteen feet. The grounds are artistically laid out with carriage-ways and walks in good order, and have ornamental entrance and exit gates. The buildings are ample, tasteful and convenient; water is abundant, there being a system of water-works, with a powerful engine, and pipes laid throughout the grounds. The track is pronounced by horsemen the best west of Chicago.

## IOWA STATE FAIR AND STATE AGRICULTURAL SOCIETY.

The Directors of the Iowa State Agricultural Society, at their last session, decided to hold their next Annual Fair here, commencing September 5, 1881, and continuing one week. The last Fair held here was the grandest exhibition of the products of the soil, agricultural implements, and manufactured products, and fine stock ever held within our State. The State Agricultural Society has been controlled, as a rule, by the best men and the best minds in Iowa; its affairs have been conducted with intelligence and prudence; its annual volume of transactions has accomplished a great work toward inviting immigration; it has given wide circulation to a knowledge of our resources to other States and countries; its compilation and preservation of statistics, its collection of the products of the field, and its library are valuable.

## NEW CAPITOL.

The new Capitol edifice is a magnificent structure. It will require two years yet before it is completed. It is built of white stone, elaborately trimmed and ornamented; there is a tower at each corner, and a gigantic dome in the center. The structure occupies a double square in length, reaching across one street, and is surrounded by what will be transformed into a magnificent park as soon as the edifice is finished. Its cost will be nearly three and a half millions of dollars. The interior will be more elaborately decorated and elegantly finished than that of any other capitol in the Western States.

## IMPROVEMENTS.

No city in the West has progressed so rapidly in the past few years, and there is none whose signs of prosperity are as encouraging, as Des Moines. In point of natural and architectural beauty she can vie with cities many years her senior. The demand for the products of the mill and factory, and the handiwork of our home artisans, is the legitimate result of the advance last year in the prices paid for all classes of products. Last year was one of remarkable improvement throughout the resident portion of our city. Six hundred and fifty-three dwellings were erected, and a large per cent of them were of great credit to our city. In beauty of locations, architectural appearance and cost of erection, Des

Moines ranks with any city of twice her population in the West. Yet she is not satisfied, nor is she dormant, after the great enlargements of 1880. One contractor has already plans for the coming season's work which will require 6,000,000 brick, and two others are preparing kilns for 5,000,000 for their own work alone. We confidently expect 1881 to exceed the hitherto unequalled exhibit of 1880.

During the last year the total expended for public and private improvements amounted to $2,244,039. Another bridge (possibly two) over the Des Moines river is proposed, which will open up a direct line of trade with a large and rich farming section south of the city. This bridge, togther with others to be built by our various railroad companies, will be erected during the year. The need of more hotel accommodations for the commercial public, although now the most ample in the State, has been met by parties who are intending this season to add extensive improvements to their hotels, and another very handsome and elegantly equipped hotel is projected for 1881. This will add greatly to the comfort of the traveling public, who now often find our hotels in a crowded condition during the sessions of the Legislature, and conventions and other State gatherings, which are becoming more frequent and larger each succeeding year.

The Masons of this city have organized a building association and have made arrangements for the erection of a grand Masonic Temple, which will cost about $75,000. It is to be built after the best and most approved designs, and will be one of the grandest buildings of the kind in the West, and a credit to our city and the order.

The German Turners' Association are expecting to build a fine hall the coming season.

The members of the Independent Order of Odd Fellows of this vicinity intend building a magnificent Temple in the near future, which will rank for beauty of architecture, size and cost among the finest buildings of the State.

The edifice now being erected by the First M. E. Church is one of the finest houses for public worship in the State of Iowa, and will be completed during the coming season at a cost of over $40,000. The seating capacity will be about 2,000. It is built in the modern Gothic style of architecture. Several other denominations are contemplating the erection of new edifices the coming season.

The trustees of Callanan College are erecting a substantial and commodious building, to be used as their chapel, recitation, scientific, library and society rooms. This will be completed during the present season at a cost of $22,000. They also contemplate many other improvements.

The buildings of the new starch works to be erected the coming season will cost $300,000. One building is to be 80x260 feet, six stories. Two other large buildings, the plans for which are being prepared, will also be built, and an elevator with a capacity of 280,000 bushels. This factory will be the most gigantic one of the kind in the Mississippi Valley.

The new building of the glucose company is 100x160 feet, three stories high, and as finely furnished as any like manufactory in the Union.

Parties have recently been in the city, and have secured a desirable

location for an alcohol distillery. The plans are being prepared for one of the largest distilleries in the West, the capacity of which will be 6,000 bushels per day.

A company, known as the Tilden Manufacturing Co., located at Kellogg, Iowa, have a process for drying and preparing a composition of vegetables for making soup. Some of the best men of Des Moines are stockholders, and propose to make our city their headquarters, and will erect a large factory here as soon as convenience will allow.

More business blocks and manufactories—in course of erection and soon to be—with hundreds of new residences, will be completed by chorus of hammer and trowel, to welcome the light of another "Happy New Year", for us to see again "an unparalleled presentment of Des Moines' business and manufacturing interests."

## STATISTICS OF IMPROVEMENTS.

The year 1880 showed that there were built six hundred and fifty-three residences, valued at $1,075,555; fifteen business blocks, $340,000; churches, colleges and public buildings, $505,000; improvements and repairs, $55,945; city improvements, including sewers, streets, sidewalks, etc., $67,535; railroads, including new bridges, depots, round-houses, etc., $215,000; giving a total of $2,259,039.

## BUSINESS ENTERPRISES NEEDED.

Every citizen will take pleasure in noting the growth of our various manufactories, the astonishing strides which the wholesale and jobbing interests have taken to supply the increasing demand for their goods, and the many new gateways opened for the entrance of other industries, which are bound to follow. Among the latter we note the following:

Nothing would be more cordially welcomed by our railroads, jobbers, contractors and wholesale dealers than the establishment of *Rolling Mills and Nail Works*. It is said that the cost of returning old rails and car wheels to Eastern mills for re-moulding, would pay the expense of re manufacturing them at this point, and nails can be made at the same price as in Eastern States; and by obtaining the ore from the Iron Mountains of Missouri, one half the freight paid for Eastern products could be saved.

Another most profitable enterprise, and one of general importance, would be *Fertilizing and Deodorizing Works*. These could utilize all the offal of our immense packing establishments and slaughtering houses. From the matter which now enters into our water courses, rendering them obnoxious to health, could be produced a fertilizer that would have great demand in the East for use on impoverished lands. And another desideratum which would prove beneficial to the health of our city is the manufacture of a deodorizer, by the same works, which would purify the atmosphere about cesspools and alleys.

*Stock Yards.*—One thing which we need, and the demand must soon be supplied, is good, convenient stock yards. Not only ought this to be the great central feeding point in transit, but efforts should be at once put forth to make Des Moines a notable stock market. The yards

should be large and conveniently arranged. Here the butcher and the packer should be able to find at all times what their business requires. We need also more

*Grain Elevators.*—The two which we now have are inadequate to the demand of this the central portion of the greatest grain raising district of the Mississippi and Missouri river valleys. To those who build them, they will prove profitable investments, and their convenience to farmers about us, will not be realized until we have them, and see their vast importance.

*A Paper Mill* would be a valuable acquisition to our city. An abundance of the material required for its manufacture is shipped from our city or wasted on the adjoining fields. The entire product of a large mill can be used here, and every convenience necessary for its operation can be had at small expense.

*A Paper Box Factory* would do well here, as the demand is already great through our manufacturing confectioners, milliners, wholesale boot and shoe houses, hats, caps and furs, druggists and starch works, besides supplying the general demand which always exists for paper boxes. We understand that a trunk factory, as well as a paper box factory, is to be in operation early the coming season.

*Canning Establishments.*—No soil excels our own in productiveness, and few regions can compare with us in the bountiful harvests of the field, the orchard and the garden. Instead of importing for consumption during the winter months, we ought to can for preservation our own sweet corn, peas, beans, tomatoes, small fruits, etc. We have the best facilities in the West for exporting these goods. A canning establishment, having all the needful accessories, would be a remunerative business, and should be built, and men of enterprise will not permit the city to be long without this important industry. We understand that the erection of works for this are already projected.

One thing most desired by every citizen is available and convenient *Market Houses.* Every resident of the city is interested in this, and the farmers and market gardeners of the vicinity are demanding it with sufficient reasons to be successful in their plea.

A large *Cheese Factory* in or near the city would be a remunerative industry. We have two creameries here, and two small cheese factories in the vicinity, but their capacity is not sufficient for all the milk which could be supplied, and the product could never exceed the demand.

A first-class *Wagon Factory* would be a profitable investment, as our agricultural implement dealers sell annually nearly one thousand wagons, which should be manufactured here. The manufacture of various farm implements is in operation here, but cannot supply one-fifth of the demand, and there is encouragement for one or more first-class factories.

*Glass Factory.*—We have encouragement that glass works will be established by parties who thoroughly understand the business, and have been in the city with a view to the manufacture of flint glassware. The best quality of silicious sand for the manufacture of flint glass is found in the immediate vicinity of Des Moines. The works contemplated will employ one hundred and fifty persons, and will produce from seventy-five to one hundred tons of glass per week. No better location for glass factories can be found in the West than at Des Moines.

There are many industries that would prove remunerative which should be established here, and we believe there is no better locality in the West, for manufactures of nearly every variety, than our city affords. We might mention many branches of business and manufacture which would be successful if located in Des Moines, but enough has already been said to induce anyone who is looking for a new site for business, or home, to visit our city before locating elsewhere. We might mention, however, that a factory for the manufacture of articles produced from flax straw would be a good investment here, where so much straw is wasted, the flax seed only being utilized by our linseed oil mills, which consume five hundred bushels per day.

A factory for the manufacture of baskets, tubs, buckets, and the various articles of wooden and willow ware, would, no doubt, be a successful venture. There is no better site for the establishment of a large boot and shoe factory than Des Moines. Several houses here are engaged in the business of hides, pelts and furs, and we have a first-class tannery which could, by enlarging its capacity, prepare all the leather necessary. A factory for the production of hats, caps, furs and gloves could be operated here where there is great demand for all such goods. Furniture of all kinds should be more extensively manufactured, there being black walnut and other varieties of woods necessary for such purposes, found in this vicinity.

Other wants in the line of manufactures may be briefly stated as follows: Establishments for the manufacture of stoves, shelf hardware, druggists' materials, sewing machines; also cotton mills and more woolen mills.

In the wholesale interests of our city, nearly every line of trade is represented by houses which justify us in speaking of them in the highest terms of praise, but healthful rivalry promotes growth, and there is room for at least another house in many branches of business, especially dry goods, carpets and oil cloths, clothing, boots and shoes, hats, caps and furs, china, glass and queensware, stoves and heavy hardware. Des Moines wants these and other factories, and is anxious to have these excellent opportunities utilized, when the beneficial results are so apparent, which we hope the capitalists of the country may soon realize.

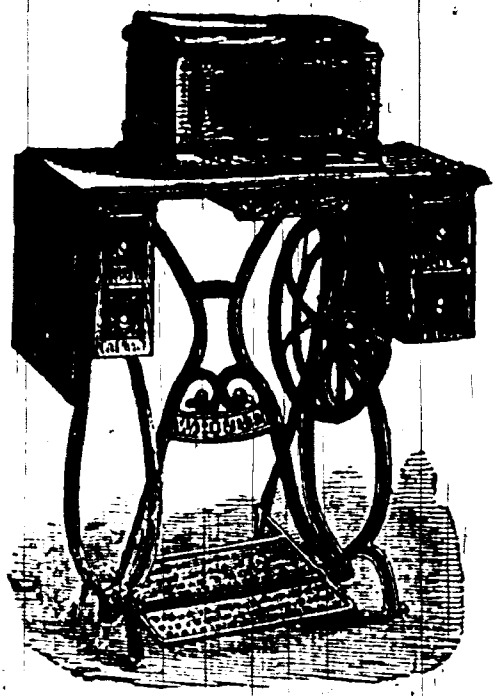

In presenting this review of Des Moines interests, allow me to say, in conclusion, that everyone feels assured of the future greatness of this city, and there is a necessity for the earnest, persistent and united co-operation of our business men, such as may be had by means of this Board. Every business man should be enrolled among our members, and should faithfully assist to the best of his ability, in the discharge of the duties incumbent upon us. The Board of Trade is the most effective agency to unite and harmonize the talent influence in the community for the public welfare, and if properly conducted it will accomplish great results in the promotion of the growth and prosperity of Des Moines.

**209 FIFTH STREET,** DES MOINES, IOWA.

---

We call attention to the Large list of Valuable Papers and Magazines that club with

# THE IOWA HOMESTEAD.

By sending your subscriptions to us you will in many cases save nearly the price of one of the papers. In other words, you will get two good papers at a little more than the cost of one alone.

A Farm, Garden, Household and Business Manual, more complete and valuable than many which are sold at $5, will be mailed FREE to each NEW subscriber to the HOMESTEAD.

# THE HOMESTEAD FOR $1.50.

The HOMESTEAD has concluded that twenty thousand subscribers at $1.50 a year are preferable to half that number at $2.00; and acting upon the desire to double its circulation for 1881, we have reduced the price to $1.50 for single subscriptions. The club rates are reduced in the same proportion. Send for a sample copy which will be sent free to all applicants. We are confident that every household in the West would find the HOMESTEAD worth more than double the value each year of its subscription price. A club can be got up in almost any neighborhood with very little effort. All postmasters are authorized to receive and forward subscriptions. Special inducements are offered to active and energetic agents. For particulars address

THE HOMESTEAD, Des Moines, Iowa.

**THE IOWA HOMESTEAD.**—This old friend comes back to us again with its good old name. Gov. B. F. Gue, who, our readers will recollect for many years, owned and edited the *Northwest*, now the *Messenger*, here in Fort Dodge, has lately bought of Dr. Sprague the *Stock Journal* and given to it its old name, THE IOWA HOMESTEAD, so familiar to us all, and is going to give to the farmers of Iowa an independent agricultural paper. We expect to see some pretty plain truths spoken. Gov. Gue speaks his own thoughts, and he has ability to express them on the pages of the HOMESTEAD in a way that will tell. This is only another evidence of the facts we have before called to the attention of our readers, viz., that there is a grand day dawning for the farmers of Iowa. There is talent and ability being given to agricultural writing that will tell wonderfully upon the intelligence of the men and women of the farms. With unfeigned gladness we hail Gov. Gue as one of the writers in farm literature who will be true to the highest interests of the farmers. We would rejoice to see the HOMESTEAD go into every homestead of our great State, for we believe its weekly visits would be a mighty lever to lift up the tiller of the soil to his true position. We can most heartily recommend every farmer to make it one of the indispensable things of his household.—L. S. COFFIN in *Fort Dodge Messenger*.

SHAW—Eighth south of Locust, from east Fourth to Thirteenth.

# A Useful and Valuable Book.

**A Farm, Garden, Household and Business Manual,** more complete and valuable than many which are sold at $5, will be mailed FREE to each NEW subscriber. This book, which is now being published, contains more practical and useful information than many libraries of a hundred volumes. *It has been compiled from works which would cost altogether about $500.* Our offer places it within reach of all. If you want the paper you get the BOOK FREE. If you want the book you get the PAPER FREE. Send your name and $1.50 for both. Tell your friends about this *rare offer*, and get up a club at our reduced rates. All new subscribers to the IOWA HOMESTEAD for 1881 in clubs or singly are entitled to this book.

**"Write for Your Paper."**—No one person, or two, or three, can make up the material for the best newspaper. The great value of an agricultural and home paper consists in collecting and publishing the knowledge, opinions and experiences of the many. New methods, ideas and discoveries are being continually evolved by careful observers and workers in the field, orchard, garden and stock-yard, in the household and around the fireside, and the HOMESTEAD cordially invites its readers everywhere to send their best thoughts, their new methods, interesting facts and valuable discoveries for publication in its columns. Every farmer needs an Agricultural and Family Newspaper. The HOMESTEAD is the best weekly paper of its class in the Northwest. It is specially devoted to the interests of Western Farmers; to Stock and Fruit raising, Dairying, Poultry and Bee-Keeping, and all departments of the Farm, Orchard, Garden and Household. It gives complete and carefully corrected Market Reports, a Summary of all important News of the Week. Among its regular contributors are many of the ablest practical men in the country.

**SOME OPINIONS OF THE PRESS.**

What a marked change Gov. Gue is making in the HOMESTEAD. He at once wheeled it into line with our very best farm papers, struck step in march with the intelligent corps that are building up farm literature.—*Traer Clipper.*

The old *Western Farm Journal*, Des Moines, has been changed back to the IOWA HOMESTEAD. It is enlarged to forty-eight columns, and otherwise improved to such an extent that it is hardly recognizable. The farmers of Iowa should have an agricultural paper, and this is the best for Iowa.—*Mt. Ayr Record.*

We desire to call the attention of our readers to the worth of the HOMESTEAD, published by B. F. Gue, at Des Moines, Iowa. The paper has been largely improved since Mr. Gue took control of it, and it now ranks equal to any published anywhere.—*Ogden Reporter.*

**Special Club Rates.**—We have made arrangements with publishers of leading journals so that we can furnish these publications with the IOWA HOMESTEAD for one year, both postpaid. Read our Club Prices. You can in many cases get a good paper for almost nothing by subscribing at our rates. For sample copy address

# WESTERN NEWSPAPER UNION.

AUXILIARY PUBLISHERS AND WHOLESALE DEALERS IN PAPER AND PRINTERS' SUPPLIES, SUCCESSOR TO

IOWA PRINTING CO., Des Moines, Iowa.
KANSAS CITY NEWSPAPER UNION, Kansas City, Mo.,
OMAHA NEWSPAPER UNION, Omaha, Neb.,
ST. PAUL NEWSPAPER UNION, St. Paul, Minnesota.

W. H. WELCH, Pres. W. A. BUNKER, Sec'y. W. E. ANDREWS, Treas.

## Principal Office, Des Moines, Iowa.

The List of Auxiliary Papers printed by the Western Newspaper Union embraces between four and five hundred of the best County Papers in Iowa, Kansas, Missouri, Nebraska, Minnesota, Colorado and Dakota. It is the best and cheapest advertising medium in the West. The Western Newspaper Union is a Stock Company, incorporated June 11, 1880, under the Laws of Iowa, with principal office at Des Moines, and branch offices at Kansas City, Mo; Omaha, Neb.; and St. Paul, Minn. It is the successor to four auxiliary companies known as the Iowa Printing Co., of Des Moines, Ia., Kansas City Newspaper Union, of Kansas City, Mo., Omaha Newspaper Union, of Omaha, Neb., and St. Paul Newspaper Union, of St. Paul Minnesota. We are now furnishing auxiliary sheets to over 400 publishers in Iowa, Minnesota, Wisconsin, Nebraska, Missouri, Kansas, and the Territories, and are pleased to be able to state that our list of patrons are steadily increasing. As an advertising medium, we claim for our lists that they are unexcelled. They are comprised of the best weekly papers of the West, and go direct to the homes of the people. They are strictly family papers, and advertising in them WILL pay.

# To ADVERTISERS.

## Concerning Co-Operative Advertising.

Shrewd advertisers generally avail themselves of co-operative lists as the best, cheapest and most efficient medium through which to reach the masses. The country newspaper is the medium through which the great public receives its information of the world's doings, the progress of art, invention and improvement. It is found in every household, and generally read—advertisements and all. The advertiser who has an article of merit of which he desires to inform the public will not be slow to adopt the best and cheapest means of advertising his goods. We have recently added a fine supply of new and beautiful display type, so that the typography and general appearance of our advertising column cannot be excelled. We claim that our list offers the best advertising medium of any list, of equal number of papers, in the country. A large proportion of our papers are leading journals at county seats, having large circulation.

Advertisements inserted in this list of Local Papers at the low rate of One Cent per Agate line per paper each insertion. Files of these papers are kept in our office for the inspection of advertisers.

## The Cheapest Advertising Medium in the West.

WE SUPPLY PUBLISHERS OF NEWSPAPERS WITH READY-PRINTED SHEETS, (Outsides or Insides) on short notice by Mail or Telegraph Order. Our SPECIAL LIST of Iowa Ready-Printed Sheets is acknowledged to be the very best for Iowa Publishers.

# JOHN A. WILSON,

—MANUFACTURER OF—

# CARRIAGES, BUGGIES. Spring Wagons. PHAETONS.

I claim they are the best vehicles of their class, and will run easier, and are offered at lower figures than anything of the same quality in the market. I take extra pains in the selection of material, and apply the severest possible test to each and every part, in order that I may have a personal knowledge and assurance that it will prove of the requisite strength and endurance. The best, and only the best, of workmen employed. All work warranted. Write or call if you want anything in my line, and I will try to please you. **Office and Factory 315 7th St., Des Moines, Iowa.**

AN INDEPENDENT AGRICULTURAL FAMILY WEEKLY.

**ESTABLISHED 1855.**

A. T. Gue, Editor. H. G. Gue, Secretary. Homestead Co., Publishers

The Only Agricultural Weekly in Iowa, and the Official Paper of the State.

Circulates Principally through Michigan, Wisconsin, Illinois, Missouri, Kansas, Nebraska, Dakota, Minnesota and Iowa.

ADVERTISING RATES.

Editorial notices thirty cents per line. Local notices twenty cents per line first insertion; 1 inch space, one insertion, $2 00; 1 inch space, one month, $6 00. Liberal discount to large advertisers. Business cards on first page (five lines or less) $20 00 per year.

Address IOWA HOMESTEAD, Des Moines, Iowa.

We are not offering a "Patent Gate," or any other humbug. We solicit every intelligent farmer in the county to an examination of what we are confident you will consider the very best device ever invented for hanging common board or farm gates. By using the combined Hinge and Roller, with half a dozen fenced boards and a few nails, any one can in a few minutes time make a Gate which will WORK EASIER, LAST MUCH LONGER, COST LESS, and prove decidedly more satisfactory than any Gate ever used on the farm.

**Retail Price of one Hinge and Roller, Complete, $1.00.**

For sale by A. F. DICKS, No. 310 Court avenue, and GIVEN & CARPENTER, No. 100 Second street, Des Moines, Iowa.

## RATES OF COMMISSION CHARGED FOR MONEY-ORDERS.

### DOMESTIC RATES.

By section 933, Postal Laws and Regulations, the fees or commissions to be charged for the issue of domestic money-orders will be as follows, namely:

| | |
|---|---|
| On orders not exceeding $15 | 10 cents. |
| Over $15 and not exceeding $30 | 15 cents. |
| Over $30 and not exceeding $40 | 20 cents. |
| Over $40 and not exceeding $50 | 25 cents. |

5. The fee on any registered matter, domestic or foreign, is fixed at ten cents on each letter or parcel, to be affixed in stamps, in addition to the postage. Two or more letters or parcels addressed to, or intended for, the same person cannot be tied or otherwise fastened together and registered as one.

No single order issued for more than $50.

Parties desiring to remit larger sums must obtain additional money-orders.

No applicant, however, can obtain, in one day, more than three orders payable at the same office and to the same payee.

County seats are indicated by *italics*. An asterisk (*) after a name indicates a money-order office.

PRIVATE LESSONS IN

**English Grammar and Latin.**

There are many who cannot afford the time to attend school, nor even private classes, who could find time to study grammar, and, with proper instruction, obtain a practical knowledge of it. There are others who need special instruction in this branch of study. I will teach by the lesson or by the month. Terms reasonable. Recitations convenient.

Twelfth St., N. of North.

# DRAKE UNIVERSITY

—OF—

# DES MOINES IOWA.

This is the name of a new University, under the auspices of the Christian Church in Iowa, just organized in our city. It is to be located on University addition to Des Moines, in the Northwestern part of the city. An endowment of over fifty thousand dollars is already provided for and a building will be erected this summer. The Christian Church of the State have resolved to transfer whatever assets they may have from an institution known as Oskaloosa College to this new institution. The institution is to be on a broad, liberal basis, with Law and Medical Departments. The following are the Board of Trustees for the first year:

BOARD OF TRUSTEES.

F. M. DRAKE,
C. E. FULLER,
E. N. CURL,
J. B. VAWTER,
SAMUEL MERRILL,
LARKIN WRIGHT,
C. A. DUDLEY,
P. M. CASSADY,
G. T. CARPENTER,
H. G. VAN METER,
D. R. LUCAS,
D. R. DUNGAN,
J. B. WHITE,
R. T. C. LORD,
ALLEN HICKEY,
N. A. MCCONNELL,
A. L. FRISBIE,
F. M. KIRKHAM.

OFFICERS OF THE UNIVERSITY.

The following are the officers of the Board of Trustees agreed upon until the annual meeting:

F. M. DRAKE, President.
G. T. CARPENTER, Vice President.
D. R. LUCAS, Secretary.
C. E. FULLER, Treasurer.

The following are the present faculty of Oskaloosa College, all of whom will remove to Des Moines in connection with this University:

G. T. CARPENTER, A. M.,
PRESIDENT OF THE FACULTY.
G. H. LAUGHLIN, A. M.,
PROFESSOR OF LANGUAGES.
B. E. SHEPARD, A. M.,
PROFESSOR OF MATHEMATICS.
G. E. BOTTENFIELD, A. M.,
PROFESSOR OF ENGLISH LITERATURE.
M. P. GIVENS, A. M.,
PRESIDENT OF COMMERCIAL DEPARTMENT.

Arrangements will be made to open the University in September if possible.

A. H. BODE, General Traffic Manager.

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

# CHICAGO, ROCK ISLAND & PACIFIC R. R.

## IS THE GREAT CONNECTING LINK BETWEEN THE EAST & THE WEST!

Its main line runs from Chicago to Council Bluffs, passing through Joliet, Ottawa, La Salle, Geneseo, Moline, Rock Island, Davenport, West Liberty, Iowa City, Marengo, Brooklyn, Grinnell, Des Moines (the capital of Iowa), Stuart, Atlantic and Avoca; with branches from Bureau Junction to Peoria; Wilton Junction to Muscatine, Washington, Fairfield, Elliott, Belknap, Centreville, Princeton, Trenton, Gallatin, Cameron, Leavenworth, Atchison, and Kansas City; Washington to Sigourney, Oskaloosa, and Knoxville; Keokuk to Farmington, Bonaparte, Bentonsport, Independence, Eldon, Ottumwa, Eddyville, Oskaloosa, Pella, Monroe, and Des Moines; Newton to Monroe; Des Moines to Indianola and Winterset; Atlantic to Lewis and Audubon; and Avoca to Harlan. This is positively the only Railroad, which owns, and operates a through line from Chicago into the State of Kansas.

Through Express Passenger Trains, with Pullman Palace Cars attached, are run each way daily between CHICAGO and PEORIA, KANSAS CITY, COUNCIL BLUFFS, LEAVENWORTH and ATCHISON. Through cars are also run between Milwaukee and Kansas City, via the "Milwaukee and Rock Island Short Line."

The "Great Rock Island" is magnificently equipped. Its road bed is simply perfect, and its track is laid with steel rails.

What will please you most will be the pleasure of enjoying your meals, while passing over the beautiful prairies of Illinois and Iowa, in one of our magnificent Dining Cars that accompany all through Express Trains. You get an entire meal as good as is served in any first-class hotel, for seventy-five cents.

Appreciating the fact that a majority of the people prefer separate apartments for different purposes and the immense passenger business of this line warranting it, we are pleased to announce that this Company runs *Pullman Palace Sleeping Cars* for sleeping purposes, and *Palace Dining Cars* for eating purposes only. One other great feature of our Palace Cars is a SMOKING SALOON where you can enjoy your "Havana" at all hours of the day.

Magnificent Iron Bridges span the Mississippi and Missouri rivers at all points crossed by this line, and transfers are avoided at Council Bluffs, Kansas City, Leavenworth, and Atchison, connections being made in Union Depots.

THE PRINCIPAL R.R. CONNECTIONS OF THIS GREAT THROUGH LINE ARE AS FOLLOWS:

At CHICAGO, with all diverging lines for the East and South.

At ENGLEWOOD, with the L. S. & M. S., and P., Ft. W. & C. R. Rds.

At WASHINGTON HEIGHTS, with P., C. & St. L. R. R.

At LA SALLE, with Ill. Cent. R. R.

At PEORIA, with P., P. & J.; P. D. & E.; I. B. & W.; Ill. Mid.; and T. P. & W. Rds.

At ROCK ISLAND, with "Milwaukee & Rock Island Short Line," and Rock Isl'd & Peo. Rds.

At DAVENPORT, with the Davenport Division C. M. & St. P. R. R.

At WEST LIBERTY, with the B., C. R. & N. R. R.

At GRINNELL, with Central Iowa R. R.

At DES MOINES, with D. M. & F. D. R. R.

At COUNCIL BLUFFS, with Union Pacific R. R.

At OMAHA, with B. & Mo. R. R. R. in Neb.

At COLUMBUS JUNCTION, with B., C. R. & N. R. R.

At OTTUMWA, with Central Iowa R. R.; W., St. L. & Pac., and C. B. & Q. R. Rds.

At KEOKUK, with Tol., Peo. & War.; Wab., St. Louis & Pac., and St. L., Keo. & N.-W. R. Rds.

At CAMERON, with H. St. J. R. R.

At ATCHISON, with Atch., Topeka & Santa Fe; Atch. & Neb. and Cen. Br. U. P. R. Rds.

At LEAVENWORTH, with Kan. Pac., and Kan. Cent. R. Rds.

At KANSAS CITY, with all lines for the West and Southwest,

**PULLMAN PALACE CARS are run through to PEORIA, DES MOINES, COUNCIL BLUFFS, KANSAS CITY, ATCHISON, and LEAVENWORTH.**

**Tickets via this Line, known as the "Great Rock Island Route," are sold by all Ticket Agents in the United States and Canada.**

# THIS NEW AND CORRECT MAP

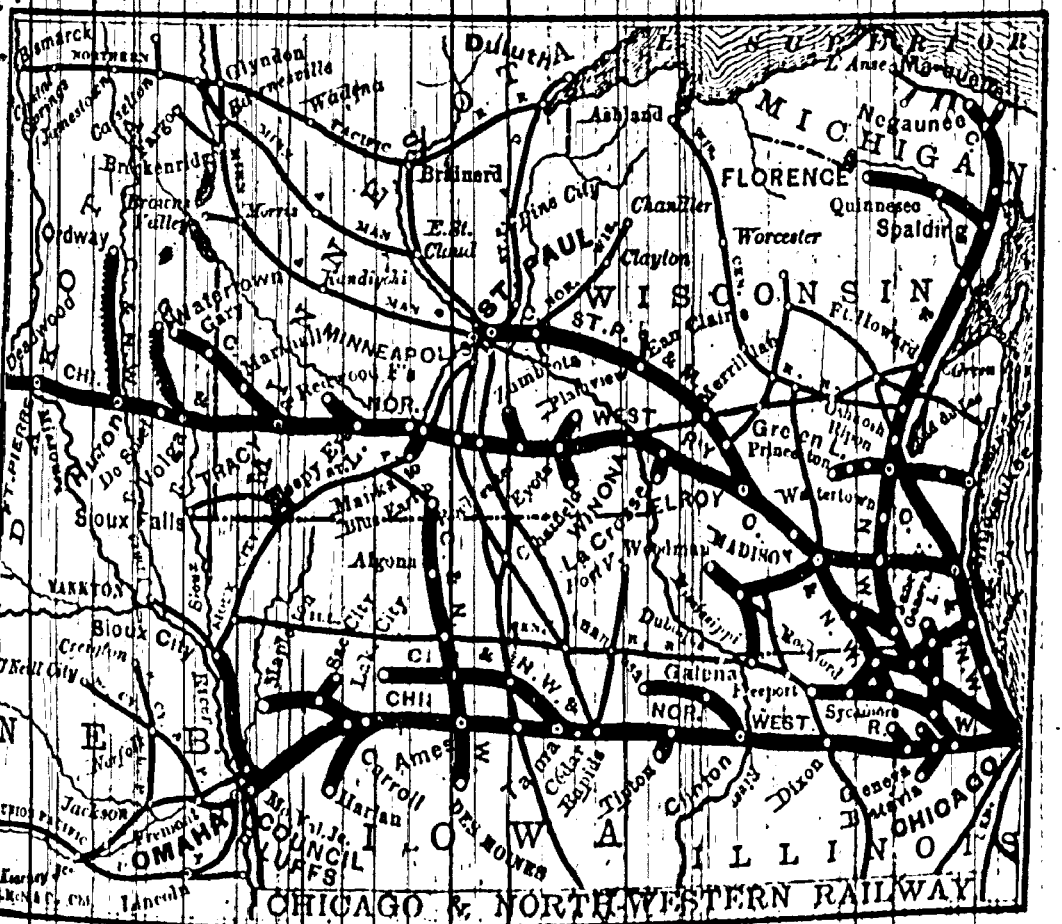

Proves beyond any reasonable question that the

# CHICAGO & NORTH-WESTERN R'Y

Is by all odds the best road for you to take when traveling in either direction between

Chicago and all of the Principal Points in the West, North and Northwest.

Carefully examine this Map. The Principal Cities of the West and Northwest are Stations on this road. Its through trains make close connections with the trains of all railroads at junction points.

## THE CHICAGO & NORTH-WESTERN RAILWAY,

Over all of its principal lines runs each way daily from two to four or more Fast Express Trains; it is the only road west of Chicago that uses the

## PULLMAN HOTEL DINING CARS.

It is the only road that runs Pullman Sleeping Cars North or Northwest of Chicago. It has nearly **3,000 MILES OF ROAD**. It forms the following Trunk Lines: "Council Bluffs, Denver & California Line." "Winona, Minnesota & Central Dakota Line." "Sioux City, Nor. Nebraska & Yankton Line." "Chicago, St. Paul and Minneapolis Line." "Nor. Illinois, Freeport & Dubuque Line." "Milwaukee, Green Bay & Lake Superior Line." Tickets over this road are sold by all Coupon Ticket Agents in the United States and Canadas.

Remember to ask for Tickets via this road, be sure they read over it, and take none other.

MARVIN HUGHITT, Gen'l Manager, Chicago. W. H. STENNETT, Gen'l Pass. Agent, Chicago.

J. J. SMART, Asst. Superintendent, Des Moines Division, Des Moines, Iowa.

J. J. DICKSON, Agent, Des Moines, Iowa.

# TAKE THE

**NO CHANGE OF CARS**

## FROM DES MOINES TO CHICAGO,

Where Direct Connections are made with

*THROUGH SLEEPING CAR LINES*

TO

## NEW YORK, BOSTON, PHILADELPHIA, BALTIMORE, WASHINGTON,

**AND ALL EASTERN CITIES.**

The short line via Peoria for Indianapolis, Cincinnati, Louisville, and all points in the Southeast.

The best line for St. Louis, where direct connections are made in the Union Depot with through sleeping car lines for all points South.

Three through passenger trains daily from Albia to Council Bluffs, Omaha, Lincoln, St. Joseph, Atchison, Topeka and Kansas City. Direct connections for all points in Kansas, Nebraska, Colorado, Wyoming, Montana, Nevada, New Mexico, Arizona, Idaho, Oregon, and California.

The unequal inducements offered by this line to travelers and tourists are as follows: The celebrated Pullman (16 wheel) Palace Sleeping Cars run only on this line, C., B. & Q. Palace Drawing Room Cars with Horton's Reclining Chairs. No extra charge for seats in reclining chairs. The famous C., B. & Q. Palace Dining Cars. Gorgeous Smoking Cars fitted with elegant high-backed rattan revolving chairs for the exclusive use of first class passengers.

Steel track and superior equipment, combined with their great through car arrangement, makes this, above all others, the favorite route to the East, South, Southwest and the Far West.

Try it, and you will find traveling a luxury instead of a discomfort.

Through tickets via this celebrated line for sale at all offices in the United States and Canada.

All information about rates of fare, sleeping car accommodations, time tables, &c., will be cheerfully given by applying to
